Previewing the Academic Content

Exercise 1, page 2

suburban, urban, rural

Exercise 2, page 2

Victimization rates are going down in all areas; urban, suburban, and rural. The exception is violent crime rates in rural and suburban areas of the U.S., which show a slight increase. Property crimes are highest in suburban areas and lowest in rural areas; violent crime rates are highest in urban areas and lowest in rural areas.

Exercise 3, page 3

1. Crime rates are higher in urban areas because there are more people in urban areas; there is more crowding and poverty.
2. Typical answers for not feeling safe in certain areas of a city may include the following: the areas are too crowded, too empty, too open, too enclosed, too narrow, too dark, etc.
3. To help lower crime rates, urban planners might: create spaces that can handle the number of people who will use them so that crowds of people don't get too tightly packed together (from housing to stadiums to parks); provide enough lighting; provide a mix of uses so that there are "eyes on the street."
