Building Inclusive Financial Systems Michael S. Barr, Anjali Kumar, Robert E. Litan, 2007-11-01 Broad based and inclusive financial systems significantly raise growth alleviate poverty and expand economic opportunity Households small enterprises and the rural poor often have difficulty obtaining financial services for a multitude of reasons including transaction costs perceived risk inadequate infrastructure and information barriers Yet many financial institutions are now making profitable inroads into underserved markets through formal banking investment in equities venture capital postal banks and microfinance Access to Finance addresses the challenges of making financial systems more inclusive emulating successful ventures in new markets and utilizing technologies and government policies to support the expansion of financial access The contributors examine many dimensions of financial access including Measuring financial access Understanding the impact of expanded access Examining alternative institutional models Exploring new technologies and information infrastructure Evaluating government policies toward outreach *Economics Of Microfinance* Dr S Kanthimathinathan, Microtrade Yong-Shik Lee, 2013-07-03 With contributions from well regarded scholars of international economic law this book sets out the case for an innovative solution to extreme poverty which utilizes international trade and its legal framework to relieve populations of the poorest countries around the world of extreme poverty Microtrade is international trade on a small scale based primarily on manually produced products using small amounts of capital and low levels of technology available at a local level in lesser developed countries This book explores the theory application and legal framework for microtrade In the first part of the book the architect of the microtrade theory Yong Shik Lee offers a theoretical framework for microtrade including its basic elements product demand and operational issues legal issues and the global management and facilitation of microtrade The book then goes on to look at issues including the structure and financing of microtrade e commerce government procurement and the fair trade movement s possible relationship with microtrade The final part of the book considers empirical case studies of microtrade with agricultural products The book shows how microtrade if effectively administered on a global scale can do much to end extreme poverty

Rural Livelihoods in China Heather Xiaoquan Zhang, 2015-03-27 In recent decades China has undergone rapid economic growth industrialisation and urbanisation concomitant with deep and extensive structural and social change profoundly reshaping the country s development landscape and urban rural relationships This book applies

livelihoods approaches to deepen our understanding of the changes and continuities related to rural livelihoods within the wider context of political economy of development in post socialist China bridging the urban and rural scenarios and probing the local national and global dynamics that have impacted on livelihood in particular its mobility security and sustainability Presenting theoretically informed and empirically grounded research by leading scholars from across the world this book offers multidisciplinary perspectives on issues central to rural livelihoods development welfare and well being It documents and analyses the processes and consequences of change focusing on social protection of mobile livelihoods particularly rural migrants citizenship rights in the city and the environmental social and political aspects of sustainability in the countryside This book contributes to the current scholarly and policy debates and is among the first attempts to critically reflect on China s market transition and the associated pathways to change It will be of interest to students in international development studies China studies social policy public health political science and environmental studies at undergraduate and postgraduate levels as well as academics policy makers and practitioners who are concerned with China s human and social development in general and agriculture and rural livelihoods in particular

Small Change Or Real Change? Tina Johnson, 2008 Gender equality is essential for sustained economic growth and for democracy peace and security This book presents key thinking on a topic that is of international concern how to ensure that sufficient financial resources are available through aid modalities and from domestic sources to effect the changes to make gender equality a reality

Reclaiming Development in the World Trading System Yong-Shik Lee, 2016-10-20 In this second edition Lee provides extensive coverage of international trade law from an economic development perspective

From Dependence to Dignity Brian Fikkert, Russell Mask, 2015-05-12 The church of Jesus Christ finds itself at a very unique moment in history The average Christian living in the economically advanced countries enjoys a level of prosperity that has been unimaginable for most of human history At the same time over 2.5 billion people in the Majority World Africa Asia and Latin America live on less than 2 per day with many of these people being Christians Ironically it is amongst the least of these in the Global South that the global church is experiencing the most rapid growth All of this raises profound challenges to the global church How can churches and missionaries in the Majority World effectively address the devastating poverty both inside their congregations and just outside their doors How can churches in the economically advanced countries effectively partner with Global South churches in this process The very integrity of the global church s testimony is at stake for where God s people reside there should be no poverty Deuteronomy 15:4 Acts 4:34 For the past several decades microfinance MF and microenterprise development MED have been the leading approaches to poverty alleviation MF MED is a set of interventions that allow households to better manage their finances and start small businesses From remote churches in rural Africa to the short term missions programs of mega churches in the United States churches and missionaries have taken the plunge into MF MED trying to emulate the apparent success of large scale relief and development organizations Unfortunately most

churches and missionaries find this to be far more difficult than they had imagined Repayment rates on loans are low and churches typically end up with struggling programs that require ongoing financial subsidies Everybody gets hurt in the process donors relief and development agencies churches and missionaries and most importantly the poor people themselves This book explains the basic principles for successfully utilizing microfinance in ministry Drawing on best practice research and their own pioneering work with the Chalmers Center Brian Fikkert and Russell Mask chart a path for churches and missionaries to pursue a path that minimizes the risks of harm relies on local resources and enables missionaries and churches to minister in powerful ways to the spiritual and economic needs of some of the poorest people on the planet The insights of microfinance can play a tremendous role in helping to stabilize poor households removing them from the brink of disaster and enabling them to make the changes that are conducive to long term progress Moreover when combined with evangelism and discipleship a church centered microfinance program can be a powerful tool for holistic ministry one that is empowering for the poor and devoid of the dependencies plaguing most relationships between churches in economically advanced countries and churches in poor nations

Islam and Development Matthew Clarke, David Tittensor, 2016-05-06

The study of Islam since the advent of 9 11 has made a significant resurgence However much of the work produced since then has tended to focus on the movements that not only provide aid to their fellow Muslims but also have political and at times violent agendas This tendency has led to a dearth of research on the wider Muslim aid and development scene Focusing on the role and impact of Islam and Islamic Faith Based Organisations FBOs an arena that has come to be regarded by some as the invisible aid economy Islam and Development considers Islamic theology and its application to development and how Islamic teaching is actualized in case studies of Muslim FBOs It brings together contributions from the disciplines of theology sociology politics and economics aiming both to raise awareness and to function as a corrective step within the development studies literature
