Accounting
An Asian Edition
Second Edition

Fung • Sudya • Cheong • Fadhlina • Tan

This revised Asian edition is an adaptation of the widely used Accounting, 20th edition by Warren, Reeve and Fess. Lecturers who have many years of experience teaching accounting have adapted it.

The book is tailored for use in a first-year course on basic accounting principles. It is written from a sole proprietorship perspective and covers the complete accounting cycle and important accounting areas like cash, receivables, inventories and fixed assets.

Local accounting practices are taught in this text. Local businesses have also been included in the text so that students can relate to the material better. The text is also written in a manner Asian students will find easy to read and understand.

"Accounting is a dynamic subject, but with this text, written in a user-friendly manner, it helps understanding of book-keeping and double-entry principles easier, thereby making the study of accounting more interesting and enjoyable."

Dr. Ernest Kim
Partner, Deloitte & Touche LLP
Vice-President, Institute of Certified Public Accountants of Singapore

"Accounting: An Asian Edition is useful reading for anyone seeking to learn the principles of accounting. It is written in a style that is easy to follow, and brings in good perspectives of local situations."

Mr. Thome Sol Chng
Head of Audit, KPMG LLP (Singapore)

"Accounting: An Asian Edition serves as an effective tool for students learning and understanding accounting in a highly iterative way. It provides an excellent foundation for those who wish to further their studies in accounting."

Mr. Kim Yee Zeng
Partner, Foo Kim Tan Grant Thornton

"This is an excellent effort by the authors in bringing the Asian perspective to an established accounting textbook. It makes learning accounting more relevant and interesting. Students will be able to identify well with the local examples used."

Mr. Daniel Teo
Director, Emerald Business School
Tamkang Polytechnic

"This book is specially tailored for students learning accounting at the introductory level. Accounting concepts are well-illustrated with examples which are relevant to the local context. There are also sufficient practice questions at the end of each chapter for students to enhance their understanding of the concepts."

Mr. Philip Lee
Director, School of Business and Accountancy
Ngee Ann Polytechnic
