Handbook of Construction Project Management Deepak Bajaj, 2025-10-29 This handbook is designed to serve as a comprehensive guide tailored to managing construction projects within the unorganized sector which is often characterized by small scale informal operations that lack structured management practices This handbook places a special emphasis on emerging economies where the unorganized sector plays a significant role in the construction industry This book aims to provide a robust foundation in construction project management by covering

essential principles and practices necessary for effective project management. It focuses on offering practical solutions and strategies to improve project delivery, cost management, and operational efficiency within the unorganized sector. Additionally, the book emphasizes sustainability and the integration of innovative technologies promoting green practices and digital transformation. By adopting a holistic approach, it incorporates socioeconomic considerations, stakeholder engagement, and capacity building to foster improvements across the sector. Real-world case studies and examples are included to illustrate the successful application of various methodologies and highlight lessons learned. Content from this book can also be used to supplement classroom teaching for courses related to construction project management and the building construction profession aimed at and practicing building engineers, construction professionals, and even architects. The contents of this book will be useful to researchers, academics, and practitioners alike.

Algebraic Geometry and its Applications

Chandrajit L. Bajaj, 2012-12-06 Algebraic Geometry and its Applications will be of interest not only to mathematicians but also to computer scientists working on visualization and related topics. The book is based on 32 invited papers presented at a conference in honor of Shreeram Abhyankar's 60th birthday, which was held in June 1990 at Purdue University and attended by many renowned mathematicians, field medalists, computer scientists, and engineers. The keynote paper is by G. Birkhoff. Other contributors include such leading names in algebraic geometry as R. Hartshorne, J. Heintz, J. Igusa, D. Lazard, D. Mumford, and J. P. Serre.

Hybrid Intelligent Systems

Ana Maria Madureira, Ajith Abraham, Anu Bajaj, 2025-11-02 This book presents 48 selected papers focused on Health Care Applications from the 23rd International Conference on Hybrid Intelligent Systems, which was held in five different cities: Olten, Switzerland; Porto, Portugal; Kaunas, Lithuania; Greater Noida, India; Kochi, India; and in online mode. The 23rd International Conference on Hybrid Intelligent Systems (HIS 2023) was focusing on synergistic combinations of multiple approaches to develop the next generation of intelligent systems. HIS 2023 had contributions by authors from 44 countries. This book offers a valuable reference guide for all medical doctors, scientists, academicians, researchers, students, and practitioners in the field of artificial intelligence and smart health care.
