Becoming Yourself Overcoming Mind Control And Ritual Abuse:

Becoming Yourself Alison Miller, 2018-05-11 In contrast to the author's previous book *Healing the Unimaginable Treating Ritual Abuse and Mind Control* which was for therapists this book is designed for survivors of these abuses. It takes the survivor systematically through understanding the abuses and how his or her symptoms may be consequences of these abuses and gives practical advice regarding how a survivor can achieve stability and manage the life issues with which he or she may have difficulty. The book also teaches the survivor how to work with his or her complex personality system and with the traumatic memories to heal the wounds created by the abuse. A unique feature of this book is that it addresses the reader as if he or she is dissociative and directs some information and exercises towards the internal leaders of the personality system teaching them how to build a cooperative and healing inner community within which information is shared each part's needs are met and traumatic memories can be worked through successfully.

Demystifying Mind Control and Ritual Abuse Alison Miller, 2024-07-18 This book was written to meet the need of therapists: a succinct, thorough, practical, clear down-to-earth handbook to which a therapist can refer as needed. Many if not most therapists have encountered a victim of complex mind control and ritual abuse and most therapists feel deskilled in this work. Working with such clients is a challenge for therapists given the extreme and prolonged nature of the clients' trauma, the severity of their dissociative disorders, the complexity of the mind control they have experienced and the reality of organised perpetrator groups who follow up on their victims. Every therapist needs to know the basics of this work. Chapter 1 defines and explains dissociation, ritual abuse and mind control. It lists indicators which suggest a client may be a victim and recommends developing reflective belief or possibly disbelief rather than maintaining therapeutic neutrality. Chapter 2 The therapeutic relationship describes victims' training to not form bonds, the parental nature of the therapeutic bond with such clients and practical ways to relate to someone dealing with internal multiplicity. Chapter 3 The life of a mind control survivor describes victims' planned experiences from infancy all the way through adulthood. Chapter 4 Engineered personality systems describes the most common forms of training or programming and the jobs of inner parts of the victim. Chapter 5 Stabilisation and internal safety explains the way in which some parts punish the victim for disloyalty by creating destabilising symptoms. Chapter 6 Working with the personality system describes internal hierarchies and how to work with them. Chapter 7 Present day physical safety looks at the ongoing torture and harassment of many victims by perpetrator groups and describes the training of various parts to return to the perpetrators, report to them and be available for further abuse. Chapter 8 Working through the traumatic memories gives guidelines regarding how to help a client work through the numerous traumatic training memories. Chapter 9 Confronting the spiritual issues in ritual abuse describes the perpetrators' spiritual, moral abuse and simulation of spiritual entities. It discusses the question of demonic possession and looks at the real spiritual issues which victims and therapists must deal with. Chapter 10 Healing for our clients and ourselves discusses victims' emotional healing.

Treating Trauma in Christian Counseling Heather Davediuk Gingrich, Fred C. Gingrich, 2017-12-19 With extensive experience treating complex trauma Heather Gingrich and Fred Gingrich have brought together key essays representing the latest psychological research on trauma from a Christian integration perspective This text introduces counseling approaches trauma information and Christian reflections for students instructors clinicians and researchers alike

From the Trenches Wendy Hoffman, Alison Miller, 2018-03-26 This book is a shaking read its controversial political statement putting forward the demand that readers accept the existence of conscious splitting of personality through treachery deception betrayal torture and violence Beginning with the introductory poem the book is an outcry about the significance of personal freedom as well as a blazing plea for commitment to making these abuses known and helping victims achieve safety and healing The two authors present victims horrendous experiences in a rational factual and professional way building a foundational knowledge regarding what mind control is how it uses deceit and lies and how through betrayal and attachment trauma the basis is laid for lifelong exploitation The authors present the terrifying and horrible situations that children are exposed to as they are coerced into actions that go against their own beliefs and true natures The cooperation of the two authors client and therapist based on mutual respect serves as a model for every change process solidarity freedom and equality

Shattered but Unbroken Valerie Sinason, Amelia Van der Merwe, 2018-05-08 *Shattered but Unbroken* is an edited volume focusing on Dissociative Identity Disorder DID which combines the narratives of survivors of ritual abuse with academic contributions on the causes correlates and interventions applicable to DID The book is divided into two distinct parts Part 1 begins with the missing memoir of Anna a survivor of ritual abuse Anna chose not to publish her memoir for fear of retribution from her perpetrators The plight of Anna is interwoven between all the contributions in the book be they life writing or academic contributions So too are the life writings of Annalise writing under pseudonym Instead of using Anna s memoir the politics of anonymity is addressed by a range of survivors of ritual abuse who write about their decision to use their real name in their narratives or to use pseudonyms Part 2 of the book contains academic contributions which deal with the causes correlates and interventions applicable to the most common response to ritual abuse DID

Inside Views from the Dissociated Worlds of Extreme Violence Gaby Breitenbach, 2018-03-26 This book is primarily for psychotherapists but is also for professionals such as lawyers judges doctors and the clergy and for victims Different perspectives describe worlds of sadistic violence revealing how human beings are deliberately and persistently broken It explores how victims are used and abused in the context of pornography prostitution and snuff videos how they are deprived of their rights through mind control degraded to nothing more than objects abused at the push of a button according to the desires of the tormentors Claims by the false memory movement aid the tormentors and this is reflected in the language these groups use With an explanation of the diverse structures of dissociation ranging from dissociation as the reaction of an organism through

conditioning all the way to programming the author develops a structural model for treating victims of extreme violence and mind control

Bloom Janice Mason Steeves, 2023-10-24 BLOOM is a call to action for those individuals not only in a later phase of life but at any age who feel the call to pursue a creative path in their lives The pressures of the modern world force many into utilitarian careers early on Artistic impulses lie unfulfilled dormant For some at a certain point there comes an ache in the bones a deep longing for creative expression a simultaneous sense of emptiness and overflowing feeling This was the case for the author Janice Mason Steeves who left a career in psychology to pursue art in her forties She went back to school graduated from the Ontario College of Art and Design and went on to develop an international art career an art consulting practice and a highly sought after travel workshop business Weaving together insights from her own art experience with the stories of 138 artists over the age of sixty whom Janice surveyed for the book Bloom offers guidance inspiration and support for the often difficult and misunderstood desire to change trajectory and take up a path of creativity and meaning Mason Steeves then takes these observations a step further suggesting that not only is it possible to come to art later in life and be successful as an artist but that the distillation of life experience and self knowledge gleaned from the artist s path may enable older artists to step into an even larger role that of a community elder The elder role acquired in this case through art but existing beyond art is essential in our society providing stability and depth wisdomkeeping space holding and care taking in Bill Plotkin s words for the very soul of the world

Restoring the Shattered Self Heather Davediuk Gingrich, 2020-03-03 Many counselors are not adequately prepared to help those suffering from complex posttraumatic stress disorder C PTSD In this updated text Heather Davediuk Gingrich provides an essential resource for Christian counselors ably integrating the established research on trauma therapy with insights from her own thirty years of experience and an understanding of the special concerns related to Christian counseling

Abusing Religion Megan Goodwin, 2020-07-17 Sex abuse happens in all communities but American minority religions often face disproportionate allegations of sexual abuse Why in a country that consistently fails to acknowledge much less address the sexual abuse of women and children do American religious outsiders so often face allegations of sexual misconduct Why does the American public presume to know what s really going on in minority religious communities Why are sex abuse allegations such an effective way to discredit people on America s religious margins What makes Americans so willing so eager to identify religion as the cause of sex abuse Abusing Religion argues that sex abuse in minority religious communities is an American problem not merely a religious one

Tackling Child Sexual Abuse Sarah Nelson, 2016-06-08 This bracing book makes a forceful case for reinvigorating our efforts to address and prevent childhood sexual abuse In recent years Sarah Nelson argues the fight against childhood sexual abuse has been complacent or even fearful She attacks the causes of this head on reassessing backlashes like that surrounding the satanic panic and arguing that policy makers practitioners and academics have a duty to move beyond such problems and address the real issue To that end she proposes new models for child

centered perpetrator focused protection community prevention and working with survivor offenders Sure to be controversial
