Bureaucratic Elites In Western European States:

Bureaucratic Elites in Western European States Edward C. Page, Vincent Wright, 1999-12-09 *Bureaucratic Elites in West European States* provides valuable information about the structures and composition of the higher civil service and its position in the political structure through a comparative analysis of Britain France Germany Italy Spain Belgium the Netherlands Austria Greece Denmark and Sweden The book explores how higher civil service has developed in the light of the massive changes in European societies in the past thirty years Changes include the size of the top level of the civil service the growing social diversity of its ranks and well as the tendency to recruit from outside the civil service The book also examines how wider social changes such as the democratisation of education the growth of interest groups and the increasing importance of the European Union impact on the higher levels of bureaucracy producing similar patterns of change throughout Europe

Bureaucratic Elites in Western European States Edward C. Page, Vincent Wright, 1999

Civil Service Systems in Western Europe, Second Edition Frits M. van der Meer, 2011-01-31 This thoroughly revised and updated second edition of *Civil Service Systems in Western Europe* presents a comprehensive overview of the important issues in modern bureaucracies and provides a comparative analysis of the civil service systems of various Western European nations

The European Commission and the Integration of Europe Liesbet Hooghe, 2001 What kind of European Union do top Commission officials want Should the European Union be supranational or intergovernmental Should it promote market liberalism or regulated capitalism Should the Commission be Europe's government or its civil service This 2002 book examines top officials preferences on these questions through analysis of unique data from 137 interviews Understanding the forces that shape human preferences is the subject of intense debate Hooghe demonstrates that the Commission has difficulty shaping its employees preferences in the fluid multi institutional context of the European Union Top officials preferences are better explained by experiences outside rather than inside the Commission political party country and prior work leave deeper imprints than directorate general or cabinet Preferences are also influenced more by internalized values than by self interested career calculation Hooghe's findings are surprising and will challenge a number of common assumptions about the workings and motives of the European Commission

Governing Europe Jack Hayward, Anand Menon, 2003-03-20 *Governing Europe* is intended to be the leading advanced survey of politics in Western Europe It examines in detail all aspects of political life in Western Europe from public protest to core executives social policy to Europe's place in the world It brings together a world class team of leading scholars from the United Kingdom continental Europe and North America The contributions provide not only a sophisticated introduction to the various issues covered but also a detailed discussion of the major theoretical and empirical debates and developments in the field The book therefore provides both a comprehensive overview and a series of original contributions to scholarly debate The focus is on European core executives public administration parties and organised interests democracy and popular participation public policy and the

changing European state It will be essential reading to scholars and students alike The volume is intended as a tribute to the late Vincent Wright of Nuffield College Oxford University *Prime Ministers in Greece* Kevin Featherstone, Dimitris Papadimitriou, 2015-07-09 This book is concerned with a large question in one small but highly problematic case how can a prime minister establish control and coordination across his or her government The Greek system of government sustains a paradox of power at its very core The Constitution provides the prime minister with extensive and often unchecked powers Yet the operational structures processes and resources around the prime minister undermine their power to manage the government Through a study of all main premierships between 1974 and 2009 *Prime Ministers in Greece* argues that the Greek prime minister has been an emperor without clothes The costs of this paradox included the inability to achieve key policy objectives under successive governments and a fragmented system of governance that provided the backdrop to Greece's economic meltdown in 2010 Building on an unprecedented range of interviews and archival material Featherstone and Papadimitriou set out to explore how this paradox has been sustained They conclude with the Greek system meeting its nemesis the arrival of the close supervision of its government by the Troika the representatives of Greece's creditors The debt crisis challenged taboos and forced a self reflection It remains unclear however whether either the external strategy or the domestic response is likely to be sufficient to make the Greek system of governance fit for purpose Introduction to Comparative Public Administration Sabine Kuhlmann, Hellmut Wollmann, Renate Reiter, 2025-02-12 This updated third edition of the *Introduction to Comparative Public Administration* explores the cultural organizational personnel and financial aspects of public administration across a wide range of European countries The authors provide country profiles comparative reform assessments and case studies to highlight the similarities and differences among European public administrations with key learning objectives highlighted for each chapter **Steering from the Centre** B. Guy Peters, Carl Dahlström, Jon Pierre, 2011-01-01 Governments face new challenges in an era marked by globalization shifting economic and national security policies pervasive electronic media and policy reform *Steering from the Centre* details how chief executives in ten Western democracies have responded to governance challenges in the wake of reform ideas such as the New Public Management which stress deregulation and decentralization This volume analyzes the extent to which the centre of government can retain political and administrative control when delivery of public services is increasingly done through networks contacts partnerships and a host of other devolved arrangements International in scope *Steering from the Centre* covers the experiences of diverse countries and examines how various centralization decentralization strategies have played out in these differing national and institutional contexts **Democracy and the State in the New Southern Europe** Richard Gunther, P. Nikiforos Diamandouros, Dimitri A. Sotiropoulos, 2006-11-16 This volume analyses the evolution of selected public policies and the changing roles and structure of the state in Greece Italy Portugal and Spain since the 1960s It makes a major contribution to work on recent democratic regime transition in southern Europe demonstrating how the

state has responded and adapted to the challenges and pressures associated with the overarching processes of democratization socio economic development and Europeanization *European Union Intergovernmental Conferences* Paul W. Thurner, Franz Urban Pappi, 2009-05-07 Provides an empirical investigation of foreign policy decision making in the EU 15 The authors examine collective decision making within national governments and in intergovernmental negotiations
