Bursting The Big Data Bubble The Case For Intuition Based Decision Making:

Bursting the Big Data Bubble Jay Liebowitz, 2014-07-25 As we get caught up in the quagmire of Big Data and analytics it remains critically important to be able to reflect and apply insights experience and intuition to your decision making process In fact a recent research study at Tel Aviv University found that executives who relied on their intuition were 90 percent accurate in their decisions Bu

Intuition in Business Eugene Sadler-Smith, 2023 This book explores the science behind intuitive decision making in business and shows how people's innate capacity for intuition can be nurtured and strengthened to maximize performance The clear and detailed explanations reveal how we can use intuition to navigate a world that is fast moving complex and uncertain

Developing Informed Intuition for Decision-Making Jay Liebowitz, 2019-07-19 This book examines how to develop the main traits that are necessary to become an informed intuitant Case studies and examples of successful informed intuitants are a major component of the book Intuitant is someone who has the intuitive awareness to be successful Informed intuitant indicates that the individual decision maker not only applies his/her intuition but also verifies it through using data driven approaches such as data analytics Some of this work resulted from research examining how well do executives trust their intuition

Handbook of Research Methods on Intuition Marta Sinclair, 2014-06-27 How does one go about studying intuition _ a complex cross disciplinary field which is still developing How can intuition be captured in situ How can a researcher harness their own intuition This book uses method related themes to help an

Intuition, Trust, and Analytics Jay Liebowitz, Joanna Paliszkiewicz, Jerzy Gołuchowski, 2017-10-25 In order to make informed decisions there are three important elements intuition trust and analytics Intuition is based on experiential learning and recent research has shown that those who rely on their gut feelings may do better than those who don't Analytics however are important in a data driven environment to also inform decision making The third element trust is critical for knowledge sharing to take place These three elements intuition analytics and trust make a perfect combination for decision making This book gathers leading researchers who explore the role of these three elements in the process of decision making

How Well Do Executives Trust Their Intuition Jay Liebowitz, Yolande Chan, Tracy Jenkin, Dylan Spicker, Joanna Paliszkiewicz, Fabio Babiloni, 2018-12-12 In this age of Big Data and analytics knowledge gained through experiential learning and intuition may be taking a back seat to analytics However the use of intuition should not be underestimated and should play an important role in the decision process How Well Do Executives Trust Their Intuition covers the Fulbright research study conducted by this international team of editors The main question of their investigation is How well do executives trust their intuition In other words do they typically prefer intuition over analysis and analytics And equally importantly what types of intuition may be most favorable looking at different variables The research utilizes survey and biometrics approaches with C level executives from Canada U S Poland and Italy In addition the book contains chapters from leading executives in industry academia and government Their insights provide examples of how their intuition enabled key decisions that they made This

book covers such topics as Using intuition How gender experience role industry and country affect intuition Trust and intuition in management Trusting intuition It s a matter of heart Leadership intuition and the future of work Creating an intuitive awareness for executives Improvisation and instinct The book explores how executives can use intuition to guide decision making It also explains how to trust intuition based decisions How Well Do Executives Trust Their Intuition is a timely and prescient reminder in this age of data driven analytics that human insight instinct and intuition should also play key roles

Entrepreneurial Learning David Rae,Catherine Wang,2015-01-09 This book explores the development of the rapidly evolving field of entrepreneurial learning by bringing together contributions from an international team of researchers who offer new understanding of its emerging development and its potential scope for the future Using the three domains of theory education and learning in practice this book offers differing and complementary perspectives on entrepreneurial learning Conceptual work which reviews and summarises prior work in the field and advances theoretical understanding of entrepreneurial learning research enabling a review of the development of research in this area over time Applied work around entrepreneurship education which develops understanding of teaching and learning practices in educational and institutional contexts Exploration of learning in real business contexts including new venture creation family business and small business development and intrapreneurial learning in larger organisations Using global perspectives originating from the different cultural contexts of the USA UK Nordic and Chinese perspectives the chapters converge to address issues questions and opportunities for the future development of entrepreneurial learning This book will be of interest to educators and researchers in the areas of entrepreneurship enterprise education and entrepreneurial development as well as policy makers and business advice and support agencies

Analytics and Intuition in the Process of Selecting Talent Jürgen Deters,2022-11-07 Human decisions especially in management and personnel selection are based on making judgments about people analytically and intuitively Yet in business and scientific contexts judgments are expected to be based on a rational analysis rather than intuitions or emotions Intuition is often seen as something mystical that should not be trusted and thus eliminated from human decision making Our empirical and theoretical research shows that this is impossible when people are dealing with people Instead intuitions and emotions have significant power in the decision making process Neuroscience even shows that humans are incapable of switching off their emotions or intuitions when making decisions Therefore intuition and emotions as evolutionary achievements of human beings should be looked at more closely to use the wisdom they offer This book provides an insight into the current state of research on rational analytical procedures in personnel selection and complements this with research on intuitions and emotions in personnel diagnostics By integrating scientifically verifiable rational analytical decision making procedures with the inner experiential knowledge of people this book bridges two complementary ways of recognizing and making good decisions It demonstrates how intuitions are developed and used in different fields of practice and cultures and how scientific research results from rational analytical

and intuitive emotional selection procedures are successfully integrated by practitioners ECMLG 2018 14th European Conference on Management, Leadership and Governance Dr. Ing. Benny M.E. de Waal, Prof. dr. Pascal Ravesteijn, 2018-10-18

Big Data and Learning Analytics in Higher Education Ben Kei Daniel, 2016-08-27 This book focuses on the uses of big data in the context of higher education The book describes a wide range of administrative and operational data gathering processes aimed at assessing institutional performance and progress in order to predict future performance and identifies potential issues related to academic programming research teaching and learning Big data refers to data which is fundamentally too big and complex and moves too fast for the processing capacity of conventional database systems The value of big data is the ability to identify useful data and turn it into useable information by identifying patterns and deviations from patterns
