Business Ethics And Continental Philosophy:

Business Ethics and Continental Philosophy Mollie Painter-Morland, René ten Bos, 2011 Business ethics has largely been written from the perspective of analytical philosophy with very little attention paid to the work of continental philosophers Yet although very few of these philosophers directly discuss business ethics it is clear that their ideas have interesting applications in this field This innovative textbook shows how the work of continental philosophers Deleuze and Guattari Foucault Levinas Bauman Derrida Levinas Nietzsche Zizek Jonas Sartre Heidegger Latour Nancy and Sloterdijk can provide fresh insights into a number of different issues in business ethics Topics covered include agency stakeholder theory organizational culture organizational justice moral decision making leadership whistle blowing corporate social responsibility globalization and sustainability The book includes a number of features designed to aid comprehension including a detailed glossary of key terms text boxes explaining key concepts and a wide range of examples from the world of business

Business Ethics and Continental Philosophy Mollie Painter-Morland, René ten Bos, 2011 Business ethics has largely been written from the perspective of analytical philosophy with very little attention paid to the work of continental philosophers Yet although very few of these philosophers directly discuss business ethics it is clear that their ideas have interesting applications in this field This innovative textbook shows how the work of continental philosophers Deleuze and Guattari Foucault Levinas Bauman Derrida Levinas Nietzsche Zizek Jonas Sartre Heidegger Latour Nancy and Sloterdijk can provide fresh insights into a number of different issues in business ethics Topics covered include agency stakeholder theory organizational culture organizational justice moral decision making leadership whistle blowing corporate social responsibility globalization and sustainability The book includes a number of features designed to aid comprehension including a detailed glossary of key terms text boxes explaining key concepts and a wide range of examples from the world of business

Cutting-edge Issues in Business Ethics Mollie Painter-Morland, Patricia Werhane, 2008-07-22 Business ethics originated in the United States as an offshoot of theoretical ethics and as part of a movement in applied ethics that was initiated with medical ethics Although a few small religious based colleges and universities offered courses in business ethics just after the Second World War business ethics as an academic field developed most seriously in many universities in the early 1970s The field of medical ethics was well developed by then and it was a natural step to think about ethical issues in business as well There was also a public reaction to a number of corporate scandals e g price fixing the Lockheed Japanese bribery allegations the Goodyear airbrake scandal etc that encouraged universities to begin teaching the subject Business ethics as an academic field was originally developed by philosophers most of whom had come out of the analytic or Anglo American philosophical traditions and who had been trained in classical ethics on Aristotle Kant Mill Bentham and perhaps Dewey The resulting field then has been dominated by this thinking Although to date there are over 50 textbooks in business ethics most textbooks in business ethics do not take into account contemporary continental philosophy Although Marxism is sometimes taught in

these courses other more contemporary continental thinkers who could contribute substantially to the field have been noted. This phenomenon is iterated in the professional journals and in theoretical books on the topic.

Business Ethics and Continental Philosophy Mollie Painter-Morland, René ten Bos, 2011-10-06 Business ethics has largely been written from the perspective of analytical philosophy with very little attention paid to the work of continental philosophers. Yet although very few of these philosophers directly discuss business ethics it is clear that their ideas have interesting applications in this field. This innovative textbook shows how the work of continental philosophers Deleuze and Guattari, Foucault, Levinas, Bauman, Derrida, Levinas, Nietzsche, Žižek, Jonas, Sartre, Heidegger, Latour, Nancy and Sloterdijk can provide fresh insights into a number of different issues in business ethics. Topics covered include agency, stakeholder theory, organizational culture, organizational justice, moral decision making, leadership, whistle blowing, corporate social responsibility, globalization and sustainability. The book includes a number of features designed to aid comprehension including a detailed glossary of key terms, text boxes explaining key concepts and a wide range of examples from the world of business.

Cambridge Handbook of Research Approaches to Business Ethics and Corporate Responsibility Patricia H. Werhane, R. Edward Freeman, Sergiy Dmytriiev, 2017-11-16 While there is a large and ever expanding body of work on the fields of business ethics and corporate social responsibility (CSR), there is a noted absence of a single source on the methodology and research approaches to these fields. In this book the first of its kind leading scholars in the fields gather to analyse a range of philosophical and empirical approaches to research in business ethics and CSR. It covers such sections as historical approaches, normative and behavioural methodologies, quantitative, qualitative and experimental perspectives, grounded theory and case methodologies and finally a section on the role of the researcher in research projects. This book is a valuable and essential read for all researchers in business ethics and CSR, not only for those starting out in the fields but also for seasoned scholars and academics.

Handbook of the Philosophical Foundations of Business Ethics Christoph Luetge, 2012-10-09 The Handbook of Business Ethics Philosophical Foundations is a standard interdisciplinary reference handbook in the field of business ethics. Articles by notable philosophers and economists examine fundamental concepts, theories and questions of business ethics: Are morality and self interest compatible? What is meant by a just price? What did the Scholastic philosophers think about business? The handbook will cover the entire philosophical basis of business ethics. Articles range from historical positions such as Aristotelianism, Kantianism and Marxism to systematic issues like justice, religious issues, rights and globalisation or gender. The book is intended as a reference work for academics, students, esp. graduate and professionals.

The Routledge Companion to Ethics, Politics and Organizations Alison Pullen, Carl Rhodes, 2015-06-05 The Routledge Companion to Ethics, Politics and Organizations synthesizes and extends existing research on ethics in organizations by explicitly focusing on ethico-politics where ethics informs political action. It draws connections between ethics and politics in and around organizations and the workplace, examines cutting edge areas and sets the scene.

for future research Through a wealth of international and multidisciplinary contributions this volume considers the broad range of ways in which ethics and politics can be conceived and understood The chapters look at various ethical traditions as well as the discursive deployment of ethical terminology in organizational settings and they also examine large scale political structures and processes and how they relate to different forms of politics which affect behaviour in organizations These many possibilities are united by a focus on how ethics can be used to inform and justify the exercise of power in organizations This collection will be a valuable reference source for students and researchers across the disciplines of organizational studies ethics and politics

Hegel's Moral Corporation Thomas Klikauer, 2016-01-26 Hegel's Moral Corporation is about two versions of a corporation one business oriented and dedicated to shareholder value and profit maximisation and one dedicated to moral life Sittlichkeit in Hegelian terms

The Routledge Critical Companion to Leadership Studies David Knights, Helena Liu, Owain Smolović-Jones, Suze Wilson, 2024-05-24 The Routledge Critical Companion to Leadership Studies offers a rich and insightful overview of critical leadership studies for students teachers researchers and practitioners The volume draws together 35 chapters from 56 authors who represent the vibrant diversity of the critical leadership community It includes chapters from emerging and preeminent scholars who share an interest in directing leadership theorizing development and practice toward the aims of liberation justice and equity The Companion is organized into six themes 1 philosophical perspectives on leadership 2 processes practices and power dynamics in leadership 3 diversity and leadership 4 leadership education and development 5 lessons from the dark side of leadership and 6 reimagining leadership and leadership studies The book has been curated to serve as a go to resource for undergraduate and postgraduate students academic staff and researchers seeking to understand the current state of play on a given topic as well as inspiration for how they might contribute to its development Each chapter provides a comprehensive yet succinct review of contemporary literature and offers the reader avenues for future research Leadership practitioners will also find provocative ideas among these pages to help them interrogate and transform the ways they lead

Contemporary Economic Ethics and Business Ethics Peter Koslowski, 2013-04-17 The approaches to economic ethics and business ethics in Continental Europe and those in America show considerable differences but also a shared interest in turning business ethics into a subject relevant and useful for business practice as well as for the philosophical debate on ethics The volume collects original essays on the major approaches to economic ethics and business ethics in Germany the USA and Europe It provides the reader with a comprehensive overview about the discussion on modern economic ethics and business ethics It introduces the German approaches to economic ethics and to business ethics to the English speaking audience
