Abram David The Spell Of The Sensuous:

The Spell of the Sensuous David Abram, 1996 Animal tracks word magic the speech of stones the power of letters and the taste of the wind all figure prominently in this intellectual tour de force that returns us to our senses and to the sensuous terrain that sustains us This is a major work of ecological philosophy that startles the senses out of habitual ways of perception

Russian Magic Cherry Gilchrist, 2009-10-13 In the heart of Russia old ways of perceiving the spirits of home and nature still prevail Fairy stories folk art and calendar customs carry hints of the old gods and offer a now rare way of linking human life to the landscape This is as true for city dwellers and villagers for the Russian soul is open to the power of myth and the mysteries of the universe This book explains how Russia's concept of soul *dusha* and sensitivity to the landscape extends to archaeologists scientists and doctors in Russia who retain an open minded approach and a keen interest in psychic phenomena along with folk traditions and faith healing Author Cherry Gilchrist has traveled often to Russia and researched its traditional lore gaining knowledge she interweaves into this book She blends that first hand knowledge with serious research to paint a lively picture of these remarkable magical traditions and their enduring power

Sample Book Insights

- 1 I was once in a trance while gazing at the stars in eastern Bali I felt myself falling through space and between the constellations below and the constellations above drifted countless fireflies their lights flickering like the stars
- 2 I had traveled to Indonesia on a research grant to study magic and I had been a professional sleight of hand magician for five years back in the United States I had spent some months in London England exploring the use of sleight of hand magic in psychotherapy
- 3 The focus of my research shifted from questions regarding the application of magical techniques in medicine and ritual curing to a deeper consideration of the relation between traditional magic and the animate natural world I came to recognize that it was through the agency of such rumors that the sorcerers were able to maintain a basic level of privacy
- 4 The traditional or tribal shaman acts as an intermediary between the human community and the larger ecological field ensuring that there is an appropriate flow of nourishment from the landscape to the human inhabitants and back to the local earth

The Soul's Code James Hillman, 2017-08-01 An acute and powerful vision offers a renaissance of humane values Thomas Moore author of *Care of the Soul* and *The Re Enchantment of Everyday Life* Plato called it *daimon* the Romans *genius* the Christians guardian angel today we use such terms as heart spirit and soul While philosophers and psychologists from Plato to Jung have studied and debated the fundamental essence of our individuality our modern culture refuses to accept that a unique soul guides each of us from birth shaping the course of our lives In this extraordinary bestseller James Hillman presents a brilliant vision of our selves and an exciting approach to the mystery at the center of every life that asks What is it in my heart that I must do be and have And why Drawing on the biographies of figures such as Ella Fitzgerald and Mohandas K Gandhi Hillman argues that character is fate that there is more to each individual

than can be explained by genetics and environment The result is a reasoned and powerful road map to understanding our true nature and discovering an eye opening array of choices from the way we raise our children to our career paths to our social and personal commitments to achieving excellence in our time Praise for The Soul's Code Champions a glorious sort of rugged individualism that with the help of an inner daimon or guardian angel can triumph against all odds The Washington Post Book World A brilliant absorbing work Hillman dares us to believe that we are each meant to be here that we are needed by the world around us Publishers Weekly

Zen Ecology Christopher Ives, 2025-03-11 Discover a way of living that can help you slow down and stay grounded and at the same time reduce your ecological impact and engage more fully with the climate crisis It may seem as though living ecologically and engaging in activism sacrifices our own enjoyment and happiness on the altar of doing the right thing In this book professor naturalist and Buddhist author Christopher Ives offers an alternative a way of living that can actually be more fulfilling than the modern consumerist lifestyle Rather than deprivation it can bring us richness In Zen Ecology Chris outlines his environmental ethic as a series of concentric circles beginning with ourselves and then moving outward into our communities all the while focusing on spaciousness mindfulness generosity and contentment At the individual level we deal with distraction clutter and ecological harm Here Chris offers ways to help us pay attention simplify our lives and lower our impact Then we explore how to envision our home as a place of the Way with Zen monastic life as a model for this without having to be a monk Next we realize our embeddedness in nature and emplace ourselves in community with others including other forms of life Finally we build on this basis to engage in activism to create a world that is more supportive of ecological health and spiritual fulfillment In this way we avoid the two extremes of apathy and burnout and uncover a way of living that is simple joyful embedded in nature connected to others in community and supportive of collective action

Nondualism Jon Paul Sydnor, Anthony J. Watson, 2023-09-05 The time has come for nondualism As a fundamentally unifying concept nondualism may seem out of place in an age of rising nationalism and bitter deglobalization but our current debates over tribalism and universalism all grant nondualism an informative relevance Nondualism rejects both separation and identity thereby encouraging unity in difference Yet nondualism as a word occupies a large semantic field Nondual theists advocate the unity of humankind and God while nondual atheists advocate the inseparability of all persons without reference to a divinity Ecological nondualism asserts that we are in nature and nature is in us while monistic nondualists assert that only God exists and all difference is illusion Edited by Jon Paul Sydnor and Anthony Watson and guided by scholars from different religions and specializations Nondualism An Interreligious Exploration explores the semantic field that nondualism occupies The collection elicits the expansive potential of the concept clarifies agreement and disagreement and considers current applications In every case nondualism is universal in its relevance yet always distinctive in its contribution
