Bio Art Altered Realities:

Bio Art William Myers, 2015-10-06 A visually striking authoritative survey of the crossover between art and biotechnology by an expert in the field In an era of fast paced technological progress and with the impact of humans on the environment increasing the concept of nature itself seems called into question Bio Art explores the work of bio artists those who work with living organisms and life processes to address the possibilities and dangers posed by biotechnological advancement A contextual introduction traces the roots of bio artistic practice followed by four thematic chapters Altering Nature Experimental Identity and Mediums Visualizing Scale and Scope and Redefining Life The chapters cover the key areas in which biotechnology has had an impact on today's world including ecology biomedicine designer genomes and changing approaches to evolutionary theory and include profiles of the work of sixty artists collectives and organizations from around the world Interviews with eight leading bio artists and technologists provide deeper insight into the ideas and methods of this new breed of creative practitioners

Cyborg Laura Forlano, Danya Glabau, 2024-02-06 A concise introduction to cyborg theory that examines the way in which technology is situated political and embodied This introduction to cyborg theory provides a critical vantage point for analyzing the claims around emerging technologies like automation robots and AI Cyborg analyzes and reframes popular and scholarly conversations about cyborgs from the perspective of feminist cyborg theory Drawing on their combined decades of training teaching and research in the social sciences design and engineering education Laura Forlano and Danya Glabau introduce an approach called critical cyborg literacy Critical cyborg literacy foregrounds power dynamics and pays attention to the ways that social and cultural factors such as gender race and disability shape how technology is imagined developed used and resisted Forlano and Glabau offer critical cyborg literacy as a way of thinking through questions about the relationship between humanity and technology in areas such as engineering and computing art and design and health care and medicine as well as the social sciences and humanities Cyborg examines whether modern technologies make us all cyborgs if we consider for instance the fact that we use daily technologies at work have technologies embedded into our bodies in health care applications or use technology to critically explore possibilities as artists designers activists and creators Lastly Cyborg offers perspectives from critical race feminist and disability thinkers to help chart a path forward for cyborg theory in the twenty first century

The Cultures of Entanglement Suzanne Anker, Sabine Flach, 2024-03-04 The symbolic meaning of plants their relevance to religion and the metaphorical provocations in the order of knowledge culture and political power underline the role of plants as something more than passive objects Current theoretical and artistic discourses have been seeking access to the world independently of man by focusing on the nonhuman other The contributors to this volume examine the historical philosophical and scientific findings that generate this idea In what way are such perspectives manifest in contemporary art Do artists develop a particular approach that enables nonhuman life forms like plants insects or animals to have an impact

The Routledge

Companion to Digital Humanities and Art History Kathryn Brown, 2020-04-15 The Routledge Companion to Digital Humanities and Art History offers a broad survey of cutting edge intersections between digital technologies and the study of art history museum practices and cultural heritage The volume focuses not only on new computational tools that have been developed for the study of artworks and their histories but also debates the disciplinary opportunities and challenges that have emerged in response to the use of digital resources and methodologies Chapters cover a wide range of technical and conceptual themes that define the current state of the field and outline strategies for future development This book offers a timely perspective on trans disciplinary developments that are reshaping art historical research conservation and teaching This book will be of interest to scholars in art history historical theory method and historiography and research methods in education

Expanding Environmental Awareness in Education Through the Arts Biljana C. Fredriksen, Camilla Groth, 2022-11-25 This book presents diverse processes of crafting that bring humans more than humans and the environment closer to one another and by doing so addresses personal and educational developments towards ecological awareness It discusses the human material relationship introduces posthuman theoretical entry points and reflects on the implementation of such theoretical perspectives in education The practical examples of crafting with the environment the material practices and reflections posed in the book provide insights into possible ways of levelling out human and material hierarchies The chapters of this book give examples of artists and crafts people s processes of thinking through materials and with materials but also their reflections on how more than humans animals and plants craft from available materials and how the environment and landscapes re craft themselves through tedious processes of transformation These case examples are founded on the authors own experiences with phenomena they are trying to understand and critically explore This book is of interest to professional creative practitioners art and craft educators art teacher educators or researchers in the field of creative practices It has power to inspire rethinking of present educational practices to ignite critical reflections about materials and more than humans and hopefully motivate transformations toward more ecologically sustainable ways of life Chapters Crafting in Dialogue with the Material Environment and Soil Laboratory Crafting Experiments in an Exhibition Setting are available open access under a Creative Commons Attribution 4.0 International License via link [springer.com](https://www.springer.com) via link [springer.com](https://www.springer.com)

Artistic Research Paulo de Assis, Lucia D'Errico, 2019-11-13 Artistic Research Charting a Field in Expansion provides a multidisciplinary overview of different discourses and practices exploring cutting edge questions from the burgeoning field of artistic research Intended as a primer on artistic research it presents diverse perspectives strategies methodologies and concrete examples of research projects situated at the crossroads of art and academia exposing international work of significant projects from Europe Asia Australia South and North America The book includes chapters on diverse fields of thought and practice addressing a common thread of questions and problematics The comprehensive editors introduction offers a much needed extensive overview of practice based artistic research in general This book is ideal for

graduate students across philosophy cultural studies art music performance studies and more

Food futures: ethics, science and culture I. Anna S. Olsson, Sofia M. Araújo, M. Fátima Vieira, 2023-07-31 Food is at the centre of human existence We eat every day not only to satisfy our physical needs but also as part of cultural and social interaction Food choices and markets shape the agricultural landscape and the cities we live in Whereas what we choose to eat and feed our family is part of who we are a growing number of actors compete to influence our food habits through marketing strategies and nutritional advice And ethical considerations are coupled with every choice over food whether related to production distribution consumption food waste policy in general marketing or advice Given the variety of implications the food problem entails the construction of an inclusive society must redirect the concerns about food in the present to the imagination of future alternatives The search for innovative solutions calls for multidisciplinary critical enquiry and utopian thinking will be instrumental in that regard This book brings together work by scholars in a wide range of disciplines addressing many different topics related to food futures Topics covered include food and literature food waste food communication food policy corporate social responsibility and public procurement in food supply responsible research and innovation in food production as well as sustainability and animal ethics and welfare

House Plants Mike Maunder, 2022-08-04 Exploring the economics science and cultural significance of houseplants a many tendrilled history of our domestic pot bound companions Our penchant for keeping houseplants is an ancient practice dating back to the Pharaohs House Plants explores the stories behind the plants we bring home and how they were transformed from wild plants into members of our households A billion dollar global industry house plants provide interaction with nature and contribute to our health happiness and well being They also support their own miniature ecosystems and are part of the home biome Featuring many superb illustrations House Plants explores both their botanical history and cultural impact from song Gracie Fields s Biggest Aspidistra in the World literature Orwell s Keep the Aspidistra Flying and cinema Audrey II in Little Shop of Horrors to fashion technology contemporary design and painting

Idea Colliders Michael John Gorman, 2020-09-15 A provocative call for the transformation of science museums into idea colliders that spark creative collaborations and connections Today s science museums descend from the Kunst und Wunderkammern of the Renaissance collectors private cabinets of curiosities through the Crystal Palace exhibition of 1851 to today s interactive exhibits promising educational fun In this book Michael John Gorman issues a provocative call for the transformation of science museums and science centers from institutions dedicated to the transmission of cultural capital to dynamic idea colliders that spark creative collaborations and connections This new kind of science museum would not stage structured tableaux of science facts but would draw scientists into conversation with artists designers policymakers and the public Rather than insulating visitors from each other with apps and audio guides the science museum would consider each visitor a resource bringing questions ideas and experiences from a unique perspective Gorman founder of the trailblazing Science Gallery describes three scenarios for science museums of the future the

Megamuseum Mall the Cirque de Soleil of the science museum world the Cloud Chamber a local space for conversations and co creation and the invisible museum digital device driven informal science learning He discusses hybrids that experiment with science and art and science galleries that engage with current research encouraging connection participation and surprise Finally he identifies ten key shifts in the evolution of science museums including those from large to small from interactive to participatory from enclosed to porous and from subject specific to cross disciplinary

The Interiors Theory Primer William Mangold, 2025-07-31 In a world where life is increasingly defined by the spaces we inhabit understanding interiors is essential to understanding ourselves The Interiors Theory Primer maps the intellectual terrain of interior design and spatial experience introducing readers to key concepts that shape how people occupy interior spaces Organized into three parts this book begins with foundational concerns such as place identity materiality and atmosphere and then examines the boundaries and expertise of the discipline before turning to critical and emerging topics like biophilia virtuality and social justice Each chapter presents a focused literature review of a major theme in interiors theory supported by key design precedents and suggestions for further reading Drawing on a wide range of scholarship The Interiors Theory Primer offers a coherent framework for understanding interiors as a distinct interdisciplinary field deeply embedded in the human condition Accessible to students useful to professionals and provocative for scholars The Interiors Theory Primer argues that the designed environments in which we live work and gather deserve greater attention not only for their aesthetic and functional qualities but also for their powerful role in shaping contemporary life

This is likewise one of the factors by obtaining the soft documents of this **Bio Art Altered Realities** by online.
