Torrey,2020-06-01 Yet we do speak wisdom among those who are mature a wisdom however not of this age nor of the rulers of this age who are passing away 1 Corinthians 2 6 There are too many trying to promote revival by pushing doctrines that have never produced a revival in all of church history These doctrines are called new but they are in reality as old as the early heresies that crept into the church They have never had power to produce conviction of sin conversion or regeneration so presumably they will not have that power today Some of the methods described in this book will appear novel to many but they are methods that have been tried before and proven effective There is no mere theorizing in the book Men whom God has used in winning souls to Christ and building up believers have been asked to write out of their own experience No one who has been asked to write has declined Such a book as this seems to be an absolute necessity of the hour There are thousands of ministers and other Christian workers in the land longing for a true revival of God s work but with no experimental or even theoretical knowledge of how to go to work to promote such a revival It is our earnest prayer and confident expectation that this book will prove helpful to all such men **Fun Curriculum Activities (K-6) for Teachers and Media Specialists** Sue Stidham,2003-03-25 Every year due to curriculum upgrades and the focus on new standards based learning teachers are expected to do more in the classroom However searching through catalogs that offer spectacular resources at high prices is often frustrating Finally there is a book that offers a few fast easy and inexpensive ideas for teachers to help them keep pace with current classroom trends Fun Curriculum Activities is packed with activities for young children that will enliven every classroom and create a fun and stimulating learning environment for students Designed to enhance lessons for K 6 the projects found in this resource will encourage critical thinking collaboration problem solving and experimental learning The simple and logical arrangement of these innovative resources provides quick access for even the busiest teacher or media specialist The format provides a foolproof listing of the materials so that every basic
