Imoagene, 2023-04-03 The Diversity Immigrant Visa Program is a lottery that awards winners from underrepresented countries the chance to apply for legal permanent residence in the United States Most lottery winners think of themselves as lucky viewing the win as an opportunity to pursue better lives for themselves and their families In Structured Luck

sociologist Onoso Imoagene uses immigrants stories to show that while the visa program benefits many recipients the program s design can also lead to exploitation in their countries of origin and reduced potential once they are in the United States Combining ethnographic observation in Africa and interviews with immigrants their family members and friends from Ghana and Nigeria Imoagene demonstrates that the visa program is a process of structured luck from how people hear about the lottery who registers for it and who participates in it to the application requirements for the visa In Ghana and Nigeria people often learn about the lottery through friends colleagues or relatives who persuade them to enter for the perceived benefits of receiving a visa opportunities for upward mobility permanent legal status and the ability to bring along family members Though anyone can enter the lottery not everyone who wins obtains a visa The visa application process requires proof of a high school diploma or artisan skills a medical exam a criminal background check an interview with U S consular officers and payment of fees Such requirements have led to the growth of visa entrepreneurs who often charge exorbitant fees to steer immigrants through the process Visa recipients who were on track to obtain university degrees at home often leave in the middle of their studies for the United States but struggle to continue their education due to high U S tuition costs And though their legal status allows them to escape the demoralizing situations that face the undocumented these immigrants lack the social support that the government sometimes provides for refugees and other migrants Ultimately Imoagene notes the real winner of the visa lottery is not the immigrants themselves but the United States which benefits from their relatively higher levels of education Consequently she argues the U S must do more to minimize the visa program s negative consequences Structured Luck illuminates the trauma resilience and determination of immigrants who come to the United States through the Diversity Visa Program and calls for the United States to develop policies that will better integrate them into society

Politics and Change in the Middle East Roy R.

Anderson, Robert Seibert, Jon G Wagner, 2015-09-07 This book focuses on range and intensity of social changes that have occurred in the Middle East examining specific issues important to an understanding of contemporary Middle Eastern politics up to and including events in the twenty first century *Quality Management* , **Environmental Law Across Cultures**

Kirk W. Junker, 2019-12-09 This book provides a practical functional comparison among various institutions tools implementation practices and norms in environmental law across legal cultures This is a new approach that focuses on the act of comparison looking at legal practice from the ground up including the perspective of citizens Most literature on comparative environmental law either focuses on a two way comparison of state jurisdictions or simply juxtaposes environmental features of two or more state jurisdictions without engaging in any analysis of the comparison However this book treats legal cultures as the objects of comparison as it provides practical comparisons among various institutions tools and norms in environmental law The arrangement and organisation of the material reverses the more traditional presentation of comparative environmental law as a series of countries within which separate descriptions are respectively presented In this book the reader is presented with environmental legal themes with examples and case studies drawn from various cultures that are compared in order to help understand the theme Case studies draw on the authors experiences in a range of legal cultures including in Australia Brazil China Chile Ethiopia Germany India Nigeria Slovakia and the USA The comparative nature of the book allows domestic professionals to develop skills to enable them to understand and advocate broader contexts for clients and helps students become more aware of specific legal systems while questioning why their own system functions or does not function as it does The book is aimed at advanced undergraduate and postgraduate students of environmental law as well as researchers and practitioners **Public Administration in the Third World V.**

Subramaniam, 1990-06-26 This multiauthor reference handbook gives a detailed objective picture of the evolution structure and processes of public administration in representative Third World countries Written by an international group of specialists with first hand knowledge of the subject it presents empirical studies of developing nations in Asia the Middle East North and Sub Saharan Africa the West Indies and Latin America The resulting data are shaped by the editor into a theoretical framework delineating the complex relationships of state bureaucracy and class in the Third World Subramaniam's introduction provides a critical overview of development literature in the field Each case study begins with an historical introduction and discusses the political executive and the administrative structures and processes Among the specific topics covered are public enterprises administrative departments personnel financial administration and regional and local administrative units The majority of the systems studied are affected by the unregulated power of public enterprises the persistence of colonial legacies and the elitism of the bureaucracy The concluding section relates these common elements to the sociohistorical characteristics of the middle class groups that dominate both politics and public administration Offering new research findings and a useful theoretical synthesis this study will promote a clearer understanding of the internal

political processes of Third World nations and be of compelling interest to specialists and students concerned with Third World political economy comparative government and international political economy *Public Administration* A.L. Verma, 2006
