Beginning Constitutional Law Beginning The Law:

Philosophical Foundations of Constitutional Law David Dyzenhaus, Malcolm Thorburn, 2016-02-04 Constitutional law has been and remains an area of intense philosophical interest and yet the debate has taken place in a variety of different fields with very little to connect them In a collection of essays bringing together scholars from several constitutional systems and disciplines *Philosophical Foundations of Constitutional Law* unites the debate in a study of the philosophical issues at the very foundations of the idea of a constitution why one might be necessary what problems it must address what problems constitutions usually address and some of the issues raised by the administration of a constitutional regime Although these issues of institutional design are of abiding importance many of them have taken on new significance in the last few years as law makers have been forced to return to first principles in order to justify novel practices and arrangements in their constitutional orders Thus questions of constitutional revolutions challenges to the demands of the rule of law and the separation of powers have taken on new and pressing importance The essays in this volume address these questions filling the gap in the philosophical analysis of constitutional law The volume will provoke specialists in philosophy politics and law to develop new philosophically grounded analyses of constitutional law and will be a valuable resource for graduate students in law politics and philosophy

The Beginnings of Philosophy in Greece Maria Michela Sassi, 2018-07-10 A celebrated study of the origins of ancient Greek philosophy now in English for the first time How can we talk about the beginnings of philosophy today How can we avoid the conventional opposition of mythology and the dawn of reason and instead explore the multiple styles of thought that emerged between them In this acclaimed book available in English for the first time Maria Michela Sassi reconstructs the intellectual world of the early Greek Presocratics to provide a richer understanding of the roots of what used to be called the Greek miracle The beginnings of the long process leading to philosophy were characterized by intellectual diversity and geographic polycentrism In the sixth and fifth centuries BC between the Asian shores of Ionia and the Greek city states of southern Italy thinkers started to reflect on the cosmic order elaborate doctrines on the soul write in solemn Homeric meter or later abandon poetry for an assertive prose And yet the Presocratics whether the Milesian natural thinkers the rhapsode Xenophanes the mathematician and shaman Pythagoras the naturalist and seer Empedocles the oracular Heraclitus or the inspired Parmenides all shared an approach to critical thinking that by questioning traditional viewpoints revolutionized knowledge A unique study that explores the full range of early Greek thinkers in the context of their worlds the book also features a new introduction to the English edition in which the author discusses the latest scholarship on the subject

A.V. Dicey and the Common Law Constitutional Tradition Mark D. Walters, 2020-11-12 In the common law world Albert Venn Dicey 1835 1922 is known as the high priest of orthodox constitutional theory as an ideological and nationalistic positivist In his analytical coldness his celebration of sovereign power and his incessant drive to organize and codify legal rules separate from moral values or political realities Dicey is an uncanny figure This book challenges this received view of Dicey Through a re examination of his life and his 1885 book *Law of the Constitution* the high priest Dicey is defrocked and a more human Dicey steps forward to offer alternative ways of reading his canonical text who struggled to appreciate law as a form of reasoned discourse that integrates values of legality and authority through methods of ordinary legal interpretation The result is a unique common law constitutional discourse through which assertions of sovereign power are conditioned by moral aspirations associated with the rule of law

The United Nations Charter as the Constitution of the International Community Bardo Fassbender, 2009-04-07 The constitutionalization of international law is one of the most intensely debated issues in contemporary international legal doctrine The term is used to describe a number of features which distinguish the present international legal order from classical international law in particular its shift from bilateralism to community interest and from an inter state system to a global legal order committed to the well being of the individual person The author of this book belongs to the leading participants of the constitutionalization debate He argues that there indeed exists a constitutional law of the international community that is built on and around the Charter of the United Nations In this book he explains why the Charter has a constitutional quality and what legal consequences arise from that characterization

Inside Out: New Beginnings James A. Gauthier, J.D., 2014-05 Patriots or anarchist Jeff 19 and Ann 18 were graduates of the Castleway Academy Each swore their allegiance to the United States and the principles set forth in the Bill of Rights They dedicated their lives and the

resources of the Academy towards preserving democracy and protecting the individual rights guaranteed to all citizens under the U S Constitution Americans were apathetic and permitted the government to compromise guaranteed rights by allowing the government in the name of Homeland Security to erode such simple things as privacy gun rights speech and assembly all for the greater good of the ruling political elite under the auspices of national security Jeff and Ann create a random encryption interface which reencrypted data every second preventing unlawful spying by the NSA and drones To awaken Americans Jeff and Ann produced historically accurate video programs covering the Declaration of Independence and the U S Constitution As citizens awakened the political elite became the targets of questions and demands that individual rights be restored and the Constitution followed The government through Homeland Security retaliated and arrested Jeff as a domestic terrorist for producing the educational videos that enticed social disobedience in the name of liberty and freedom The battle for liberty was reborn New Beginnings is the first book in a trilogy that addresses government overreach lack of transparency and the desire to stop fourth amendment violations by disabling drones and shutting down the NSA data collector A Law Dictionary, Adapted to the Constitution and Laws of the United States of America, and of the Several States of the American Union: With References to the Civil and other Systems of Foreign Law John Bouvier,1868
