Belarus Jan Zaprudnik, 1993-08-17 Belarus sometimes called the Western Gate of the Soviet Union has been placed by history between powerful states to the east and west Soldiers of Muscovy and Poland of Napoleon and Hitler and of Alexander I and Stalin have all left their mark Its territory has been laid claim to by both the Russians and the Poles and religious and political echoes of their challenges continue to be heard In this timely volume Jan Zaprudnik himself a native Belarusian paints a vivid picture of the complex past of Belarus formerly known as Belorussia paving the way for his analysis of the challenges facing the newly independent republic In recent years Belarus has been less visible to the world than the Baltic republics to the north or Ukraine to the south yet this multiethnic republic has undergone a significant demographic social cultural and political evolution since 1956 A proclamation of state sovereignty in July 1990 combined with the accelerated fragmentation of the Soviet Union to push Belarus along the uncertain road to independence a process that culminated with a declaration of full independence in August 1991 Although perestroika contributed to a dramatic rise in national consciousness among the people of Belarus the new nation state is notable for in its quest for interethnic coexistence and for peaceful solutions to the problems brought about by independence [The American Bibliography of Slavic and East European Studies](#) Patt Leonard, Rebecca Routh, 2020-02-27 This bibliography first published in 1957 provides citations to North American academic literature on Europe Central Europe the Balkans the Baltic States and the former Soviet Union Organised by discipline it covers the arts humanities social sciences life sciences and technology [The American Bibliography of Slavic and East European Studies for 1994](#) Patt Leonard, Rebecca Routh, 1997-05-31 This text provides a source of citations to North American scholarships relating specifically to the area of Eastern Europe and the former Soviet Union It indexes fields of scholarship such as the humanities arts technology and life sciences and all kinds of scholarship such as PhDs *Belarus* Jan Zaprudnik, 1993-08-16 The author examines Belarus complex past and analyzes the challenges facing the republic in the wake of a disintegrating Soviet Union [Lithuania](#) V. Political Construction Sites Pal Kolsto, 2018-02-19 The dissolution of the Soviet Union has provided scholars with tremendously rich material for the study of comparative nation building Not since the decolonization of Africa in the 1960s have so many new states been established in one stroke in one region The post Soviet states moreover have all the necessary prerequisites for fruitful comparison a number of similarities but also significant differences in terms of size culture and recent history In order to survive in the long run modern states normally must have a population that possesses some sense of unity Its citizens must adhere to some common values and common allegiance towards the same state institutions and symbols This does not mean that all inhabitants must necessarily share the same culture but they should at least regard themselves as members of the same nation Strategies to foster this kind of common nationhood in a population are usually referred to as nation building After a decade of post Soviet nation building certain patterns are emerging and not always the most obvious ones Some states seem to manage well against high odds while others appear to be disintegrating or sinking slowly into oblivion To a remarkable degree the former Soviet republics have chosen different models for their nation building This book examines the preconditions for these endeavors the goals the state leaders are aiming at and the means they employ to reach them
