Practical Benefit Realisation Management Jagjivan; Green Matharu (Mike), 2015 [Managing successful programmes](#) Great Britain. Office of Government Commerce, 2007-09-03 Combining rigour and flexibility MSP helps all organisations public sector and private large and small achieve successful outcomes from their programme management time and time again With change a pressing reality for all organisations successful programme management has never been more vital to success Organisations must respond as new processes or services are introduced supplier relationships alter and structures adapt to market forces or legislation At the same time all organisations strive to achieve excellence by improving practices offering better services preparing more effectively for the future and encouraging innovation But change always creates new challenges and risks Inevitably there will be interdependencies to manage and conflicting priorities to resolve as the organisation adapts not just to a new situation internally but to the constantly shifting world outside To enable organisations to manage their programmes successfully they need a structured framework that does two things It must acknowledge that every programme exists in its own context and demands unique interpretation At the same time it must be universally applicable MSP has been developed with these two priorities in mind Its framework allows users to consistently manage a huge variety of programmes so that they deliver quality outcomes and lasting benefits Fusing leadership with

management best practice MSP enables organisations to coordinate their key functions develop a clear sense of unity and purpose and achieve the strategic cohesion necessary to drive through effective change **Managing Business with SAP** Linda K. Lau,2005-01-01 Managing Business with SAP Planning Implementation and Evaluation is important to all IT managers as it addresses the reasons why many ERP systems fail and how IT managers can improve the rate of successful implementation **Benefits Realisation Management** Stuart Wilde,2023-11-28 Stuart undertook formal Benefits Programme and Portfolio Management training and has been employed as a Benefits Manager in Projects Programmes and Portfolio Offices P3Os and In Service BaU teams in Public and Private Sector organisations since 2014 It took Stuart time to implement effective Benefits Management despite attending formal training because there was no practical guide available there was varied and competing views on the subject and a successful approach with support from the organisation was hard to find Indeed much time had been spent on circular conversations trying to understand the subject confusion and language A structured informed guide could have saved significant time and money Stuart used the lived experience to inform this guide and approach so the P3Os and In Service BaU teams can see it s practical application Stuart removes the jargon gets to the point and seeks to save time so Benefit Managers can work effectively and at pace and develop their knowledge and skills using an accepted approach to boost performance Stuart would like to thank all stakeholders who were involved either directly or indirectly for their interactions influence and exchanges and a special thank you to Paul Carter for his time and assistance **Benefits Realization Management for PMO Practitioners** Carlos Eduardo Martins Serra,2020-10-25 In the recent years Benefits Realization Management BRM has been increasingly applied and valued by organizations all around the world In this scenario there is a recognition that project program and portfolio management office PMO functions could in many cases take some additional responsibilities that could significantly strengthen their contribution to the effectiveness of the BRM process This guide provides an easy to follow three step process that groups BRM practices into fifteen areas of activity and will enable PMO practitioners to assume a pivotal role in the benefits realization management process and consequently in the creation of strategic value to their organizations through successful projects programs and portfolio The book splits 90 activity categories into the following 15 activity areas that are divided across 3 steps Preparing Planning and Delivering Appraisal business case Definition Evaluation post project review Framework Identification Managing risks Mapping Metrics catalogue Realisation Plan Reporting Reviewing Lessons learned Strategic Alignment Tracking Training and advising
