Blank Architecture Apartheid And After:

Blank ,2000* Blank-- Hilton Judin,1998 This book is a compilation of over forty essays both written and photographic which seek to present the complexities of the built environment and the deep structures of divisive spatial planning in South Africa P 4 of cover

The Spaces of the Modern City Gyan Prakash,Kevin M. Kruse,2008-02-24 It historicizes the contemporary discussion of urbanism highlighting the local and global breadth of the city landscape This interdisciplinary collection examines how the city develops in the interactions of space and imagination The essays focus on issues such as street design in Vienna the motion picture industry in Los Angeles architecture in Marseilles and Algiers and the kaleidoscopic paradox of post apartheid Johannesburg They explore the nature of spatial politics examining the disparate worlds of eighteenth century Baghdad nineteenth century Morelia They also show the meaning of everyday spaces to urban life illuminating issues such as crime in metropolitan London youth culture in Dakar memory projects in Tokyo and Bombay cinema

The Politics of Public Space Setha Low,Neil Smith,2013-01-11 Why is public space disappearing Why is this disappearance important to democratic politics and how has it become an international phenomenon Public spaces are no longer democratic spaces but instead centres of private commerce and consumption and even surveillance and police control The Politics of Public Space extends the focus of current work on public space to include a consideration of the transnational in the sense of moving people and transformations in the nation or state to expand our definition of the public and public space Ultimately public spaces are one of the last democratic forums for public dissent in a civil society Without these significant central public spaces individuals cannot directly participate in conflict resolution The Politics of Public Space assembles a superb list of contributors to explore the important political dimensions of public space as a place where conflicts over cultural and political objectives become concrete

Literary and Cultural Representations of the Hinterlands Ewa Kęłowska-Ławniczak,Dominika Ferens,Katarzyna Nowak-McNeice,Marcin Tereszewski,2023-12-22 This interdisciplinary collection explores the diverse relationships between the frequently ignored and inherently ambiguous hinterlands and their manifestations in literature and culture Moving away from perspectives that emphasize the marginality of hinterlands and present them as devoid of agency and cultural currency this collection assembles a series of original essays using various modes of engagement to reconceptualize hinterlands and highlight their semiotic complexity Apart from providing a reassessment of hinterlands in terms of their geocultural significance this book also explores hinterlands through such concepts as nostalgia heterotopia identity formation habitation and cognitive mapping with reference to a wide geographical field Literary and filmic revisions of familiar hinterlands such as the Australian outback Alberta prairie and Arizona desert are juxtaposed in this volume with representations of such little known European hinterlands as Lower Silesia and Ukraine and the complicated political dimension of First World War internment camps is investigated with regard to Kapuskasing Ontario Rural China and the Sussex Downs are examined here as writers retreats Inner city hinterlands in Haiti

India Morocco and urban New Jersey take on new meaning when contrasted with the vast hinterlands of megacities like Johannesburg and Los Angeles The spectrum of diverse approaches to hinterlands helps to reinforce their multilayered and multivocal nature as spaces that defy clear categorization

Neoliberalism on the Ground Kenny Cupers, Helena Mattsson, Catharina Gabrielsson, 2020-02-25 Architecture and urbanism have contributed to one of the most sweeping transformations of our times Over the past four decades neoliberalism has been not only a dominant paradigm in politics but a process of bricks and mortar in everyday life Rather than to ask what a neoliberal architecture looks like or how architecture represents neoliberalism this volume examines the multivalent role of architecture and urbanism in geographically variable yet interconnected processes of neoliberal transformation across scales from China Turkey South Africa Argentina Mexico the United States Britain Sweden and Czechoslovakia Analyzing how buildings and urban projects in different regions since the 1960s have served in the implementation of concrete policies such as privatization fiscal reform deregulation state restructuring and the expansion of free trade contributors reveal neoliberalism as a process marked by historical contingency Neoliberalism on the Ground fundamentally reframes accepted narratives of both neoliberalism and postmodernism by demonstrating how architecture has articulated changing relationships between state society and economy since the 1960s

Hidden Pretoria Johan Swart, 2019-10-01 Despite being South Africa's capital city Pretoria has often played a supporting role to bold and brash Johannesburg and Cape Town's cosmopolitan charms However when it comes to architectural heritage the Jacaranda City is well endowed From the skyline dominating Union Buildings and Voortrekker Monument to the imposing edifices of its administrative precincts Pretoria might be deserving of a second moniker the city of sandstone brick and granite But when you look beyond the impressive facades soaring columns and linear planes of buildings that were intended to convey power and authority you'll find light filled interiors embellished with decorative touches that are only hinted at from the outside Murals mosaics domes galleries stained glass windows gleaming brass and impressive woodwork are often hidden from view behind doors that are closed to the public And even those museums buildings and places of worship that are open to all have noteworthy architectural and design features that are easily overlooked The history of the city and of the country has been played out in many of the buildings featured in Hidden Pretoria This book captures facets of our diverse heritage historic and contemporary so that a new generation might recognise the need to embrace the past in order to build our common future
