Deconstructing Health Inequity Timothy A. Carey, Sara J. Tai, Robert Griffiths, 2021-04-04 This book offers a radically different perspective on the topic of health inequity Carey Tai and Griffiths use Perceptual Control Theory PCT to deconstruct current approaches to understanding investigating and addressing problems of health inequity In the book the authors propose that health inequity is not a problem per se Disrupted control they argue is the problem that needs to be addressed From this perspective research policy and health practices directed at addressing health inequity in isolation will offer only partial solutions to the problems created by disrupted control Addressing problems of disrupted control directly however has the potential to entirely resolve issues that are created by health inequity The authors have extensive clinical and research experience in a wide range of contexts including cross cultural settings rural remote and underserved communities community mental health settings prisons schools and psychiatric wards Drawing on these diverse experiences the authors describe how adopting a Perceptual Control Theory perspective might offer promising new directions for researchers and practitioners who have an interest in addressing issues of inequity and social justice With a Foreword written by Professor Neil Gilbert this book will provide fresh insights for academics practitioners and policymakers in the fields of public health psychology social policy and healthcare

Dissertation and Scholarly Research: Recipes for Success: 2018 Edition Jim Goes, Marilyn K. Simon, 2017-09-20 A Dissertation Guide for Professional Learners Doctoral education has changed dramatically over the last three decades Traditionally pursuit of a doctoral or research credential involved intense study at a large traditional research university and was reserved for those seeking careers in academia or research The process of completing doctoral level work at traditional universities usually required a commitment to full time study varied

tremendously between institutions and was often somewhat mysterious Today all this has changed The emergence and growth of online education has led to a proliferation of doctoral learning possibilities for busy professionals Individuals in the industry nonprofit and education are sectors are pursuing doctoral study as a means to advance their careers increase their market value in the workplace and establish their professional stature If this sounds like you then you have come to the right place Recipes for Success is the book that will launch you on a successful quest for the doctoral degree Dissertations are very personal endeavors and accomplishments originating with problems and issues that are meaningful and important to the doctoral learner These professionals are deeply grounded in their understanding of the issues and needs of their profession Recipes build on this this understanding helping learners to discover and frame issues they are passionate about and construct a credible and influential research study around this passion While most dissertation guides focus largely or exclusively on the mechanics of writing and organization Recipes approaches dissertation development as an iterative process of thinking and self reflection that leads learners to discover what matters most to them and to their professions and enables them to frame this meaning into a research problem and purpose and to organize and execute a study design to fit and thus solve the problem and achieve the purpose From the very beginning of your doctoral journey to the ultimate achievement of degree completion this book is your guide to the process and content of dissertation and research creation In Recipes for Success we articulate a process by which you can build the pieces of a successful and influential dissertation Using a workbook approach rich in tools templates frameworks examples web integration and hard won lessons from experience Recipes provides a friendly easy to navigate process crafting issues and ideas into research and results Based on our 40 years of collective experience in the online educational setting mentoring over 300 professional learners to success in completing their doctorates including numerous award winners we identify the most important factors for success and the traps to avoid Whether you are considering doctoral study are already in a doctoral program or are working to develop and complete your dissertation you will find Recipes for Success a key ingredient in your success as a doctoral learner Our graduates tell us that Recipes is THE book that made a difference in their doctoral career and success YOU can do it too Good luck on your doctoral journey *Psychological Foundations of Marketing* Allan Kimmel, Allan J Kimmel, 2018-01-12 This is the only textbook to provide an applied critical introduction to the role of psychology in marketing branding and consumer behavior Ideally suited for both students and professionals the new edition is a complete primer on how psychology informs and explains marketing strategies and how consumers respond to them The book provides comprehensive coverage of Motivation the human needs at the root of many consumer behaviors and marketing decisions Perception the nature of perceptual selection attention and organization and how they relate to the evolving marketing landscape Decision making how and under what circumstances it is possible to predict consumer choices attitudes and persuasion Personality and lifestyle how insight into consumer personality can be used to formulate marketing plans Social behavior the powerful role of

social influence on consumption Now featuring case studies throughout to highlight how psychological research can be applied in the marketplace and insightful analysis of the role of digital media and new technologies this award winning textbook is required reading for anyone interested in this fascinating and evolving subject *Beginning Behavioral Research* Ralph L. Rosnow, Robert Rosenthal, 2005 This successful introduction to behavioral research methods written by two leaders in the field provides step by step guidance through the processes of planning an empirical study analyzing and interpreting data and reporting findings and conclusions It encourages readers to be analytical and critical not only in interpreting research findings but also in investigating what is behind the claims and conclusions in news reports of scientific results While the primary emphasis is on behavioral and social research a strong effort is made to connect these disciplines with the empirical reasoning used in other fields in order to underscore the unity of science The volume examines behavioral research and scientific method creative ideas and working hypotheses ethical considerations and guidelines observation and measurement design and implementation describing data and making inferences and statistical tests For those interested in an introduction to research methods Statistics Frederick L. Coolidge, 2020-01-10 The Fourth Edition of Statistics A Gentle Introduction shows students that an introductory statistics class doesn't need to be difficult or dull This text minimizes students anxieties about math by explaining the concepts of statistics in plain language first before addressing the math Each formula within the text has a step by step example to demonstrate the calculation so students can follow along Only those formulas that are important for final calculations are included in the text so students can focus on the concepts not the numbers A wealth of real world examples and applications gives a context for statistics in the real world and how it helps us solve problems and make informed choices New to the Fourth Edition are sections on working with big data new coverage of alternative non parametric tests beta coefficients and the placebo effect discussions of p values in the context of research an expanded discussion of confidence intervals and more exercises and homework options under the new feature Test Yourself Included with this title The password protected Instructor Resource Site formally known as SAGE Edge offers access to all text specific resources including a test bank and editable chapter specific PowerPoint slides Online Research Essentials Brenda Russell, John Purcell, 2009-04-27 Online Research Essentials Designing and Implementing Research Studies Online Research Essentials Written by experts in the field Online Research Essentials provides step by step guidance to the student or new practitioner in how to create test and deploy online survey research The book includes everything needed for planning and developing a survey putting it online and formatting data for further analysis Russell and Purcell provide support for using the popular Microsoft Expression Web and Adobe Dreamweaver web page authoring tools and for using the Access database that is used to collect and store survey results Online Research Essentials is a comprehensive resource that discusses the practical aspects of survey development and applied research and offers information on a wide range of research related topics that include Scientific method and research design Ethical considerations on using the Internet for

research Creating web pages Planning the research study Creating a simple survey on the Internet Developing an e survey
Creating more complicated Internet surveys Sampling procedures Developing experimental designs JavaScript and web
programming and advanced JavaScript programming Repeated measures and matched group designs
