Being Leaders Being Leaders:

Being Leaders Aubrey Malphurs, 2003-09 Not all definitions of leadership are equal This book helps pastors minister effectively by understanding the unique nature of being a Christian leader **New Paradigms on Becoming a Leader** Acene F. Fleurmons, 2013-07-11 Becoming a leader should be one of the greatest ambitions a person could ever have Leading other people seems to be such an honorable thing which has potential to elevate one's status with prestige honor and so on It is so true that I will spend my lifetime to encourage you all to go for it to fight with your soul and spirit except with your body to step after Mahatma Gandhi who was able to lead India to its independence using non violent fight in order to reach this mountaintop However it is not without prices and responsibilities It seems that a leader's responsibilities are greater than his rights in such a point there is nothing to gain in leading other people It would have been better to be led than to be leading So leadership would bring more pain to a leader's life than satisfaction However as leadership must be about serving others and the spirit of service leads to greatness it is good to aspire to become a leader Now what does it take for one to become a leader Responding to this question will be all our endeavors in writing this book Women's Experiences in Leadership in K-16 Science Education Communities, Becoming and Being Katherine C. Wieseman, Molly Weinburgh, 2009-06-18 A discourse on women's leadership within science education has until now been largely invisible in book form This therefore is the first book to address women's leadership within science education The book embraces relational ways of knowing as a foundation for leadership and takes courageous steps by exposing our innermost tensions dilemmas and feelings about leadership making them available to others The power promise of feminine approaches to transform traditional leadership cultures is also addressed The authors believe that anyone can lead regardless of position title years of experience or age They also believe that each of us has a responsibility to provide some leadership and direction for the shared endeavours of which we are part The purpose of the book is to inspire and guide educators and academics in K 16 science education as well as individuals in other professions as their leadership skills develop The leadership activities provided offer guidance and or concrete ways to delve into issues of leadership **On Becoming a Woman Leader** Susan R.
