Fictions of Infinity Martin Riedelsheimer, 2020-10-12 This study traces the connection of infinity and Levinasian ethics in 21st century fiction It tackles the paradox of how infinity can be represented in the finite space between the covers of a book and finds an answer that combines conceptual metaphor theory with concepts from classical narratology and beyond such as *mise en abyme* textual circularity intertextuality or omniscient narration It argues that texts with such structures may be conceptualised as infinite via Lakoff and Neeb's Basic Metaphor of Infinity The catachrestic transfer of infinity from structure to text means that the texts themselves are understood to be infinite Taking its cue from the central role of the infinite in Emmanuel Levinas's ethics the function of such fictions of infinity turns out to be ethical infinite textuality disrupts reading patterns and calls into question the reader's spontaneity to interpret This hypothesis is put to the test in detailed readings of four 21st century novels David Mitchell's *Cloud Atlas* Jeanette Winterson's *The Stone Gods* Ian McEwan's *Saturday* and John Banville's *The Infinities* This book thus combines

ethical criticism with structural aesthetics to uncover ethical potential in fiction **Bodies and Artefacts: Historical Materialism as Corporeal Semiotics (2 vols.)** Joseph Fracchia, 2021-12-20 In a seemingly offhand often overlooked comment Karl Marx deemed human corporeal organisation the first fact of human history Following Marx's corporeal turn and pursuing the radical implications of his corporeal insight this book undertakes a reconstruction of the corporeal foundations of historical materialism Part I exposes the corporeal roots of Marx's materialist conception of history and historical materialist Wissenschaft Part II attempts a historical materialist mapping of human corporeal organisation Suggesting how to approach human histories up from their corporeal foundations Part III elaborates historical materialism as corporeal semiotics Part IV a case study of Marx's critique of capitalist socio economic and cultural forms reveals the corporeal foundations of that critique and the corporeal depth of his vision of human freedom and dignity The Drama of Space Holger Kleine, 2017-10-23 The experience of architectural spaces is formed by the way they are staged The Drama of Space examines the composition and articulation of architectural spaces in terms of spatial dramaturgy as a repertoire of means and strategies for shaping spatial experience This fundamental approach to architectural design is presented in four parts Archetypal principles of spatial composition are traced from the study of three assembly buildings of the early modern period in Venice Theatre film music and theory provide background knowledge on dramaturgy Detailed analyses of 18 international case studies offer new perspectives on contemporary architecture The book ends with a systematic presentation of the dramaturgy of space its parameters and tools in architectural design
