Betting On Famine Why The World Still Goes Hungry:

Betting on Famine Jean Ziegler, 2010-04-20 The seminal book on global poverty and hunger How rapacious speculators and complicit bureaucrats are starving a billion people Wenonah Hauter executive director of Food Water Watch and author of Foodopoly Few people know that world hunger was very nearly eradicated in our lifetimes In the past five years however widespread starvation has suddenly reappeared and chronic hunger is a major issue on every continent In an extensive investigation of this disturbing shift Jean Ziegler one of the world's leading food experts lays out in clear and accessible terms the complex global causes of the new hunger crisis Ziegler's wide ranging and fascinating examination focuses on how the new sustainable revolution in energy production has diverted millions of acres of corn soy wheat and other grain crops from food to fuel The results he shows have been sudden and startling with declining food reserves sending prices to record highs and a new global commodities market in ethanol and other biofuels gobbling up arable lands in nearly every continent on earth Like Raj Patel's pioneering *Stuffed and Starved* *Betting on Famine* will enlighten the millions of Americans concerned about the politics of food at home and about the forces that prevent us from feeding the world's children In this devastating book Ziegler describes the horrors of food insecurity the callousness of crusaders of neoliberalism who control food and land access and the individuals and grassroots organizations fighting for subsistence farmers and the right to food Publishers Weekly starred review Passionate well researched objective and illuminating When we close this book indignant we know that those who die of hunger are victims of money and power L Express

Hunger Martin Caparros, 2020-02-25 Nothing less than astonishing Booklist starred review From a renowned international journalist comes a galvanizing international bestseller about mankind's oldest most persistent and most brutal problem world hunger There are now over 800 million starving people in the world An average of 25 000 men and women and in particular children perish from hunger every day Yet we produce enough food to feed the entire human population one and a half times over So why is it that world hunger remains such a deadly problem In this crucial and inspiring work award winning author Mart n Caparr s travels the globe in search of an answer His investigation brings him to Africa and the Indian subcontinent where he witnesses starvation first hand to Chicago where he documents the greed of corporate food distributors and to Buenos Aires where he accompanies trash scavengers in search of something to eat An international bestseller when it first appeared this first ever English language edition has been updated by Caparr s to consider whether conditions that have improved or worsened since the book's European publication With its deep reflections and courageous journalism Caparr s has created a powerful and empathic work that remains committed to ending humankind's longest ongoing crisis

Justice in Global Health Himani Bhakuni, Lucas Miotto, 2023-10-24 Rather than making another attempt at proposing a single and unifying theory of global health justice this timely collection brings together instead scholars from a range of traditions to frame the issue more broadly highlighting not only different perspectives but also key topics and debates The volume features chapters that offer

both new theoretical approaches to global health justice as well as fresh takes on existing frameworks Others adopt a bottom up approach to tackle specific problems including the sexual rights of children and adolescents artificial intelligence AI in medicine framing of neglected tropical diseases securitization of health and trademarks in global health Brought together within one volume the breadth of these chapters provides a unique and enlightening contribution to the wider Global Health field This important volume will be a fascinating read for students and researchers across Global Health Bioethics Political Philosophy and Global Development

[A World Without Hunger](#) Archie Davies, 2022-11-17 An Open Access edition of this book is available on the Liverpool University Press website and the OAPEN library as part of the Opening the Future project with COPIM Drawing on the rich personal archive of the geographer Josu de Castro this book tells a new history of geography by following one of the twentieth century s most influential and creative Brazilian intellectuals from the estuarine city of Recife to the halls of the UN the chambers of Bras lia and exile amid the political fervour of the universities of Paris in 1968 This is the first English language book on the absorbing life of Josu de Castro It follows modern anticolonial geographical thought in formation re reading Castro s metabolic humanist geography as the anchor of a utopian practice of freedom the demand for a world without hunger Starting from Castro s life and work the book offers new takes on the history of nutrition translation in geography Brazilian modernist art and practice in post war internationalism the radical geographical intellectual the problem of the region in the Brazilian Northeast and the birth of political ecology and critical environmental thought At once a biographical intellectual history and a work of geographical theory this innovative book tells the story of 20th century geography from a new angle and in new company

Just Food Jill M. Dieterle, 2015-11-09 Who has access and who is denied access to food and why What are the consequences of food insecurity What would it take for the food system to be just Just Food Philosophy Justice and Food presents thirteen new philosophical essays that explore the causes and consequences of the inequities of our contemporary food system It examines why 842 million people globally are unable to meet their dietary needs and why food insecurity is not simply a matter of insufficient supply The book looks at how food insecurity tracks other social injustices covering topics such as race gender and property as well as food sovereignty food deserts and locavorism The essays in this volume make an important and timely contribution to the wider philosophical debate around food distribution and justice

[Black Earth](#) Timothy Snyder, 2016-09-06 NEW YORK TIMES BESTSELLER Timothy Snyder identifies the conditions that allowed the Holocaust conditions our society today shares He certainly couldn t be more right about our world The New Republic A gripping and disturbingly vivid The Wall Street Journal portrait of the defining tragedy of our time from the 1 New York Times bestselling author of On Tyranny ONE OF THE BEST BOOKS OF THE YEAR The Washington Post The Economist Publishers Weekly In this epic history of extermination and survival Timothy Snyder presents a new explanation of the great atrocity of the twentieth century and reveals the risks that we face in the twenty first Based on untapped sources from eastern Europe and forgotten testimonies from Jewish survivors Black Earth

recounts the mass murder of the Jews as an event that is still close to us more comprehensible than we would like to think and thus all the more terrifying By overlooking the lessons of the Holocaust Snyder concludes we have misunderstood modernity and endangered the future The early twenty first century is coming to resemble the early twentieth as growing preoccupations with food and water accompany ideological challenges to global order Our world is closer to Hitler s than we like to admit and saving it requires us to see the Holocaust as it was and ourselves as we are Groundbreaking authoritative and utterly absorbing Black Earth reveals a Holocaust that is not only history but warning New York Times Editors Choice Finalist for the Samuel Johnson Prize the Mark Lynton History Prize the Arthur Ross Book Award **Commodity Politics** Adam Sneyd, Steffi Hamann, Charis Enns, Lauren Q. Sneyd, 2022-02-15 Responsibility is political As the international community has called for more responsible environmental social and governance performance the politics of commodities has become more fraught Commodity Politics cuts through the new rhetoric of responsibility and presents innovative research from Cameroon to provide a better understanding of the political complexity surrounding commodity production and trade in the twenty first century Assessing the perspectives of businesses international organizations governments and civil society groups the authors offer insights gleaned from years of field research in a commodity dependent country Commodity Politics presents case studies of sugar palm oil cocoa and the Chad Cameroon pipeline project These cases uncover a problematic politics that is much broader than the implications of corporate social responsibility codes for people and the planet delivering solid rationales for policy makers and commodity stakeholders to think more deeply about investor driven approaches to improving environmental social and governance conduct This book trains students and scholars to better recognize political intricacies and consequential flash points Immersing its readers in timely debates over the meaning and intent of responsibility Commodity Politics breaks new ground in the political analysis of development **Smaller Faster Lighter Denser Cheaper** Robert Bryce, 2014-05-13 In the face of today s environmental and economic challenges doomsayers preach that the only way to stave off disaster is for humans to reverse course to de industrialize re localize ban the use of modern energy sources and forswear prosperity But in this provocative and optimistic rebuke to the catastrophists Robert Bryce shows how innovation and the inexorable human desire to make things Smaller Faster Lighter Denser Cheaper is providing consumers with Cheaper and more abundant energy Faster computing Lighter vehicles and myriad other goods That same desire is fostering unprecedented prosperity greater liberty and yes better environmental protection Utilizing on the ground reporting from Ottawa to Panama City and Pittsburgh to Bakersfield Bryce shows how we have for centuries been pushing for Smaller Faster solutions to our problems From the vacuum tube mass produced fertilizer and the printing press to mobile phones nanotech and advanced drill rigs Bryce demonstrates how cutting edge companies and breakthrough technologies have created a world in which people are living longer freer healthier lives than at any time in human history The push toward Smaller Faster Lighter Denser Cheaper is happening across multiple sectors Bryce profiles innovative

individuals and companies from long established ones like Ford and Intel to upstarts like Aquion Energy and Khan Academy And he zeroes in on the energy industry proving that the future belongs to the high power density sources that can provide the enormous quantities of energy the world demands The tools we need to save the planet aren't to be found in the technologies or lifestyles of the past Nor must we sacrifice prosperity and human progress to ensure our survival The catastrophists have been wrong since the days of Thomas Malthus This is the time to embrace the innovators and businesses all over the world who are making things Smaller Faster Lighter Denser Cheaper An Ethnography of Hunger Kristin Phillips,2018-08-29 In An Ethnography of Hunger Kristin D Phillips examines how rural farmers in central Tanzania negotiate the interconnected projects of subsistence politics and rural development Writing against stereotypical Western media images of spectacular famine in Africa she examines how people live with rather than die from hunger Through tracing the seasonal cycles of drought plenty and suffering and the political cycles of elections development and state extraction Phillips studies hunger as a pattern of relationships and practices that organizes access to food and profoundly shapes agrarian lives and livelihoods Amid extreme inequality and unpredictability rural people pursue subsistence by alternating between and sometimes combining rights and reciprocity a political form that she calls subsistence citizenship Phillips argues that studying subsistence is essential to understanding the persistence of global poverty how people vote and why development projects succeed or fail **Capitalism and the Death Drive** Byung-Chul Han,2021-05-18 What we call growth today is in fact a tumorous growth a cancerous proliferation which is disrupting the social organism These tumours endlessly metastasize and grow with an inexplicable deadly vitality At a certain point this growth is no longer productive but rather destructive Capitalism passed this point long ago Its destructive forces cause not only ecological and social catastrophes but also mental collapse The destructive compulsion to perform combines self affirmation and self destruction in one We optimize ourselves to death Brutal competition ends in destruction It produces an emotional coldness and indifference towards others as well as towards one's own self The devastating consequences of capitalism suggest that a death drive is at work Freud initially introduced the death drive hesitantly but later admitted that he couldn't think beyond it as the idea of the death drive became increasingly central to his thought Today it is impossible to think about capitalism without considering the death drive
