

Beyond Fukushima

Toward a Post-Nuclear Society

Koichi Hasegawa

Translated by
Minako Sato

Beyond Fukushima Post Nuclear Society Japanese

Chao Zhang

Beyond Fukushima Post Nuclear Society Japanese:

Beyond Fukushima Kōichi Hasegawa, 2015 It finally dawned on us The government was unreliable Politicians and bureaucrats were unreliable The media was untrustworthy The brutal reality hit us that we had to protect ourselves otherwise bury our heads in the sand and give up altogether Written in the immediate aftermath of the Great East Japan Earthquake and accident at the Fukushima Daiichi Nuclear Power Station of March 2011 Koichi Hasegawa presents a compelling account of the events of 3 11 against the backdrop of the history and geopolitics of the nuclear industry worldwide He argues passionately for denuclearization and is highly critical of the Japanese Government in terms of its response to the Fukushima nuclear disaster Back cover

Beyond Fukushima Kōichi Hasegawa, 2015 It finally dawned on us The government was unreliable Politicians and bureaucrats were unreliable The media was untrustworthy The brutal reality hit us that we had to protect ourselves otherwise bury our heads in the sand and give up altogether Written in the immediate aftermath of the Great East Japan Earthquake and accident at the Fukushima Daiichi Nuclear Power Station of March 2011 Koichi Hasegawa presents a compelling account of the events of 3 11 against the backdrop of the history and geopolitics of the nuclear industry worldwide He argues passionately for denuclearization and is highly critical of the Japanese Government in terms of its response to the Fukushima nuclear disaster Back cover

Fukushima and Beyond Christopher Hubbard, 2016-04-22 The catalyst for this study was the Fukushima Daiichi major nuclear accident of 11 March 2011 In this event a severe earthquake and 15 metre tsunami caused serious damage and equipment failures at Japan's Fukushima 1 Nuclear Power Plant which were judged by the International Atomic Energy Agency to be equally as serious as the Soviet Chernobyl nuclear disaster of 1986 Against a background of nuclear hesitancy and reassessment the prospect of including or excluding nuclear power in a low carbon twenty first century world is now increasingly critical It is in this emerging scenario and context that this book presents a full suite of historical contemporary and projected data Its use of complementary and comparative country based case studies provides ample opportunity for developing strongly illustrative analysis of policy effectiveness in diverse polities and markets In this way it combines clear comprehensive and rigorously science based evidence analysis and interpretation of data all leading to conclusions and policy recommendations Furthermore it builds an understanding of the complexities and many challenges posed by the nuclear power option

Japan's Ultra-right Naoto Higuchi, 2016 First published in Japanese in 2014 by the University of Nagoya Press as *Nihon Gata Haigai Shugi* by Naoto Higuchi

Climate Action in a Globalizing World Carl Cassegard, Linda Soneryd, Hakan Thorn, Asa Wettergren, 2017-05-18 The existence and urgency of global climate change is a matter of scientific consensus Yet the global politics of climate change have been anything but consensual In this context a wave of global climate activism has emerged in the last decade in response to the perceived failure of the political negotiations This book provides a unique comparative study of environmental movements in USA Japan Denmark and Sweden analyzing their interaction with the

international climate institutions of the United Nations with national governments and with currents in the global climate movement. It documents how and why the movement evolved between the Copenhagen Summit of 2009 and the Paris Summit of 2015, altering its strategies and tactics while attracting new actors to the issue area. Further, it demonstrates how the development of global environmental networks has increased contact between environmental movements in the Global North and those from the Global South, resulting in the establishment of climate justice as a political cause and unifying frame for global climate activism.

Handbook of Post-Western Sociology: From East Asia to Europe, 2023-04-03

Beyond hegemonic thoughts, the Post-Western sociology enables a new dialogue between East Asia (China, Japan, Korea) and Europe on common and local knowledge to consider theoretical continuities and discontinuities to develop transnational methodological spaces and co-produce creolized concepts. With this new paradigm in social sciences, we introduce the multiplication of epistemic autonomies vis-à-vis Western hegemony and new theoretical assemblages between East Asia and European sociologies. From this ecology of knowledge, this groundbreaking contribution is to co-produce a post-Western space in a cross-pollination process where Western and non-Western knowledge do interact, articulated through cosmovisions as well as to co-produce transnational fieldwork practices.

Creating Subaltern Counterpublics A-gwi Sö, 2017

This is a study of a political and social movement instigated by older Korean women in Japan, beginning in the 1990s. Koreans in Japan have occupied a unique position among ethnic minority groups. Until recently, they constituted the largest group of foreign nationals, yet they have been marginalized politically, socially, economically, and culturally. Korean women are doubly disadvantaged: treated as inferior to men by both Korean and Japanese society. Furthermore, the first generation of Korean women migrants were not educated as children, rendering them functionally illiterate and thus triply marginalized. Late in life, when family and work responsibilities became less onerous, local authorities created educational opportunities which the women took up in unexpected numbers, overloading the facilities. The authorities' responses effectively re-marginalized them. The elderly Korean women took a stance and, in the process, reconstituted themselves as social and political actors. This book examines that self-transformation process.

Series: Japanese Society Series / Subject: Gender Studies / Japanese Studies / Korean Studies / Migrant Studies

Historical Dictionary of Postwar Japan William D. Hoover, 2018-12-15

Japan is a mix of the old and the new, traditional and modern, and old fashion and innovative. It has traveled the road to a modern destination without totally losing sight of its traditions and values. Although some in Japan lament the passing of old ways, Japan has held on to a reasonable amount of its traditions and values. This is easier to find in its arts and crafts and its literature and films as well as in its social habits. This book will introduce the broad sweep of people, events, and trends, including the successes and failures of postwar Japan. This second edition of *Historical Dictionary of Postwar Japan* contains a chronology, an introduction, appendixes, and an extensive bibliography. The dictionary section has over 500 cross-referenced entries on important personalities, politics, economy, foreign relations, religion, and culture. This book is an excellent resource for students, researchers, and anyone

wanting to know more about Japan **New Challenges and Solutions for Renewable Energy** Paul Midford,Espen Moe,2021-02-12 This book identifies second stage challenges and opportunities for expanding renewable energy into a mainstay of electricity generation that can replace fossil fuels and nuclear power comparing Japan with several countries in East Asia and Northern Europe Environmentally sustainable renewable energy technologies have now overtaken fossil fuel and nuclear technologies in terms of total global investment and the costs of these technologies and related ones e g storage batteries are rapidly falling Yet renewable energy use varies greatly from country to country Major second stage obstacles to replacing fossil and nuclear fueled electricity generation include the lack of electricity grid capacity and storage assets Opportunities and solutions include expanding grids regionally and internationally building flexible smart grids that offer better demand management and policies that promote the expansion of storage assets especially grid batteries and hydrogen In addition two key factors electricity market restructuring through unbundling transmission from electricity generating companies and electricity market liberalization especially for retail customers allow consumers to choose power companies based not only on price but also on method of generation especially fossil or nuclear generation versus renewable energy

Climate Change Governance in Asia Kuei-Tien Chou,Koichi Hasegawa,Dowan Ku,Shu-Fen Kao,2020-07-19 Asian countries are among the largest contributors to climate change China India Japan and South Korea are among the top ten largest carbon emitters in the world with South Korea Japan and Taiwan also some of the largest on a per capita basis At the same time many Asian countries notably India Taiwan Japan the Philippines and Thailand are among those most affected by climate change in terms of economic losses attributed to climate related disasters Asia is an extremely diverse region in terms of the political regimes of its constituent countries and of their level of development and the nature of their civil societies As such its countries are producing a wide range of governance approaches to climate change Covering the diversity of climate change governance in Asia this book presents cosmopolitan governance from the perspective of urban and rural communities local and central governments state society relations and international relations In doing so it offers both a valuable overview of individual Asian countries approaches to climate change governance and a series of case studies for finding solutions to climate change challenges
