The Ultimate Collection on UFOs compiled from Wikipedia entries and published by by Dr Googelberg, 2012-06-11 Lots of information on sightings and everything from a scientific angle about them Compiled from Wikipediapages and published by DrGoogelberg *Communication with Extraterrestrial Intelligence (CETI)* Douglas A. Vakoch, 2011-04-01 In April 2010 fifty years to the month after the first experiment in the Search for Extraterrestrial Intelligence SETI scholars from a range of disciplines including astronomy mathematics anthropology history and cognitive science gathered at NASA's biennial Astrobiology Science Conference AbSciCon for a series of sessions on the search for intelligent life This book highlights the most recent developments in SETI discussed at that conference emphasizing the ways that SETI has grown since its inception The volume covers three broad themes First leading researchers examine the latest developments in observational SETI programs as well as innovative proposals for new search strategies and novel approaches to signal processing Second both proponents and opponents of Active SETI debate whether humankind should be transmitting intentional signals to other possible civilizations rather than only listening Third constructive proposals for interstellar

messages are juxtaposed with critiques that ask whether any meaningful exchange is possible with an independently evolved civilization given the constraints of contact at interstellar distances where a round trip exchange could take centuries or millennia As we reflect on a half century of SETI research we are reminded of the expansion of search programs made possible by technological and conceptual advances In this spirit of ongoing exploration the contributors to this book advocate a diverse range of approaches to make SETI increasingly more powerful and effective as we embark on the next half century of searching for intelligence beyond Earth
