Quixotic Desire Ruth Anthony El Saffar, Diana de Armas Wilson, 2019-06-07 In this venturesome collection scholars representing a variety of approaches contribute fifteen essays that shed new light not only on the uses of psychoanalysis for reading Cervantes but also on the relationship between Freud's reading of Cervantes in the summer of 1883 and the very foundation of psychoanalytic paradigms

City of the Beast Phil Baker, 2022-08-16 A work that combines biography and psychogeography to trace Aleister Crowley's life in London I dreamed I was paying a visit to London Aleister Crowley wrote in Italy continuing It was a vivid long coherent detailed affair of several days with so much incident that it would make a good sized volume Crowley had a love hate relationship with London but the city was where he spent much of his adult life and it was the capital of the culture that created him Crowley was a post decadent with deviant Victorian roots in the cultural ferment of the 1890s and the magical revival of the Golden Dawn Not a walking guide although many routes could be pieced together from its pages this is a biography by sites A fusion of life writing with psychogeography steeped in London's social history from Victoria to the Blitz it draws extensively on unpublished material and offers an exceptionally intimate picture of the Great Beast We follow Crowley as he searches for prostitutes in Hyde Park and Pimlico drinks absinthe and eats Chinese food in Soho and find himself down on his luck in Paddington Green and never quite losing sight of the illumination that drove him the abiding rapture he wrote in his diary which makes a bus in the street sound like an angel choir

A collection of English exercises, tr. from Cicero, for school-boys to re-tr. into Lat.; by W. Ellis, revised and improved by T.K. Arnold William Ellis (of King's coll, Aberdeen), Thomas Kerchever Arnold, 1855

Phenomenology of the Political Kevin Thompson, Lester E. Embree, Lester Embree, 2000-01-31 This volume is a collection of phenomenological investigations of the political domain The essays analyze basic concepts such as action community and the relation of the political to the ethical investigate fundamental issues such as the nation state leadership sovereignty and responsibility and they examine the convergence of these matters as exemplified in racial discrimination The volume also includes discussions of the often neglected work of such important contributors to this field as Alfred Schutz and Paul Ricoeur

L'unité en sciences du langage Salah MEJRI, Inès SFAR, Marc VAN CAMPENHOUDT, 2014-10-30 Les lexicologues terminologues et traducteurs savent très bien qu'il n'est pas facile d'arriver un consensus large sur des concepts pourtant fondamentaux comme la lexie le lemme le terme ou l'unité de traduction On connaît parfaitement aussi pour les avoir souvent subis les inconvenients sérieux que présente le manque d'une définition formelle et largement acceptée par la communauté scientifique de ces notions clés Cependant la

question de l'unité ne se pose pas. La double face du signe saussurien a cédé progressivement la place à une conception triadique comprenant signifié, signifiant et combinatoire. Il va de soi que cette formule compositionnelle s'applique aux autres unités linguistiques segmentales, les morphèmes, mais également aux unités suprasegmentales, les prosodies, dont la description pose des problèmes sérieux et exige des outils théoriques et méthodologiques qui ne sont disponibles que pour un nombre restreint de spécialistes. Par ailleurs, les morphologues connaissent bien deux types d'unités linguistiques dont le signifiant n'est pas directement perceptible, puisqu'il s'agit d'opérations : les modifications, répétitives et alternances, et les conversions. Et les syntacticiens leur tour semblent encore loin d'avoir puisé la description des syntagmes spécialement dans une perspective contrastive. Telle est la thématique abordée dans ces actes des 9es Journées scientifiques du réseau LTT organisées à Villetaneuse les 15 et 16 septembre 2011.

Immunities in the Age of Global Constitutionalism Anne Peters, Evelyne Lagrange, Stefan Oeter, Christian Tomuschat, 2015-01-27 The law of immunity of states of international organisations and of public officials is one of the most important and most controversial topics of international law. The book consists of five parts: State Immunity, National Practice, State Immunity before the ICJ, The case Germany v Italy, Commercial Activities and State Immunity, Immunity and Impunity and Immunities of International Organisations. Although immunities are in principle firmly anchored in international law, their precise legal implications are often unclear. The book takes up a number of new trends and challenges in this field and assesses them within the framework of global constitutionalism and multilevel governance. Contains chapters in both English and French.
