Antiracist Education From Theory To Practice:

Antiracist Education Julie Kailin, 2002-03-11 This book combines theory practice and ethnography in an exploration of how teachers can fully implement diversity and antiracism as a foundation of their teaching approach The author a white mother of children of color whose work is influenced by her own experience being raised in an antiracist activist family developed her curriculum over many years of active involvement with parents and teachers in schools She presents her curriculum along with ethnographic reports of the processes of change that teachers experience as they fully explore the realities of race relations its history and the lived experiences of others Kailin shows how immersion in this exploration enables teachers to develop curricula and teaching practices that are effectively antiracist and fully connected to students lives

Antiracist Teacher Education Gilda Martínez-Alba, Luis Javier Penton Herrera, Afra Ahmed Hersi, 2022-07-26 In this edited book sponsored by the ATE Diversity Committee we invited teacher educators to provide their stories from the field of education related to antiracist instruction in teacher education The stories took the form of narratives and counternarratives The engaging ideas activities and suggestions throughout provide readers with much content to reflect on and apply in their teacher education classrooms and programs Education advocates and policy makers would also be interested in hearing the perspectives of these educators as they bring to light much information that is not clear through just the numbers or quantitative statistics These in depth rich descriptions provide high quality information that would be beneficial to educators in various settings and subject areas as this is an antiracist teacher education is an issue that goes across all areas in education

Antiracist Pedagogy in Action Erin T. Miller, Angela V. Walker, 2023-01-09 This book is written by a diverse group of educators who spent the better part of one year learning about and implementing antiracist pedagogy We hope our work is inspiring to other educators who want to learn more about antiracist pedagogy more than that we hope it provides a tool to engage with and speak back against repressive policies that seek to push out antiracist pedagogies We worry that antiracist pedagogy has become a buzzword in scholarship and public discourse simultaneously feared silenced hated misunderstood misused and appropriated We believe antiracist pedagogy has a place in democratic education Therefore we consider this book to be a clarifying project In it we provide precise definitions and concrete examples to demonstrate how antiracist pedagogy is a way of teaching and learning that engages past failures of American democracy in order to inspire students to take action toward fulfilling the promise of American democracy

Anti-Racist Educational Research Delane A. Bender-Slack,Francis Godwyll,2024-04-08 Towards Anti Racist Educational Research Radical Moments and Movements is a call for educational researchers and teachers to engage in the work needed

to be anti racist In the academy there is no place for neutrality when it comes to race One either endorses the idea of a racial hierarchy or that of racial equality Educators and researchers either believe problems are rooted in groups of people or locate the roots of problems in power and policies Therefore we can either allow racial inequities to continue or confront racial inequities Delane Bender Slack and Francis Godwyll work to confront those racial inequities in educational research As they continue to grapple with their role in radical moments and movements from various identities perspectives and positionalities they strive to identify their intellectual social and cultural labor in their research and in this writing as anti racist The editors define what it could mean to be anti racist in research methods projects and agendas and they pose the following questions How do we ask anti racist research questions How do we create anti racist curricula How do we design anti racist policies What does it mean to be racially humanizing educational researchers How do we intentionally work towards racial justice
