Geoff Dembicki, 2017-08-22

A declaration of resistance and a roadmap for radical change from the generation that will be most screwed by climate change The Millennial generation could be first to experience the doomsday impacts of climate change It's also the last generation able to do something about them With time ticking down 31 year old journalist Geoff Dembicki journeyed to Silicon Valley Canada's tar sands Washington DC Wall Street and the Paris climate talks to find out if he should hope or despair What he learned surprised him Millions of people his age want to radically change our world and they are at the forefront of resistance to the politicians and CEOs steering our planet towards disaster In Are We Screwed Dembicki gives a firsthand account of this movement and the shift in generational values behind it through the stories of young people fighting for their survival It begins with a student who abandons society to live in the rainforest and ends with a Muslim feminist fomenting a political revolution We meet a Brooklyn artist terrifying the oil industry a Norwegian scientist running across the melting Arctic and an indigenous filmmaker challenging the worldview of Mark Zuckerberg Are We Screwed makes a bold argument in these troubled times A safer and more equitable future is more achievable than we've been led to believe This book will forever change how you view the biggest existential challenge of our era and redefine the generation now battling
