**A New American Labor Movement** William E. Scheuerman, 2021-10-01 The American labor movement isn't dead It's just moving from the bargaining table to the streets In A New American Labor Movement William Scheuerman analyzes how the decline of unions and the emergence of these new direct action movements are reshaping the American labor movement Tens of thousands of exploited workers from farm laborers and gig drivers to freelance artists and restaurant workers have taken to the streets in a collective attempt to attain a living wage and decent working conditions with or without the help of unions This new worker militancy expressed through mass demonstrations strikes sit ins political action and similar activities has already achieved much success and offers models for workers to exercise their power in the twenty first century Finally Scheuerman notes many of the strategies of the new direct action groups share features with the sectoral bargaining model that dominates the

European labor movement suggesting that sectoral bargaining may become the foundation of a new American labor movement *Re-Union* David Madland, 2021-05-15 In *Re Union* David Madland explores how labor unions are essential to all workers Yet union systems are badly flawed and in need of rapid changes for reform Madland's multilayered analysis presents a solution a model to replace the existing firm based collective bargaining with a larger industry scale bargaining method coupled with powerful incentives for union membership These changes would represent a remarkable shift from the norm but would be based on lessons from other countries US history and current policy in several cities and states In outlining the shift Madland details how these proposals might mend the broken economic and political systems in the United States He also uses three examples from Britain Canada and Australia to explore what there is yet to learn about this new system in other developed nations Madland's practical advice in *Re Union* extends to a proposal for how to implement the changes necessary to shift the current paradigm This powerful call to action speaks directly to the workers affected by these policies the very people seeking to have their voices recognized in a system that attempts to silence them
