Bernie Sanders Rolling Stone:

Bernie Sanders's Democratic Socialism Nicolas Gachon, 2021-03-20 This book provides a framework for understanding and analyzing Bernie Sanders's democratic socialism its origins its maturation and its evolution between 1972 when Sanders ran for the Vermont gubernatorial election for the first time and 2020 when he made his second presidential run The core argument is that Bernie Sanders's characteristic brand of socialism evolved from the mould of late 19th century utopian radicalism to radical demands for state and corporate accountability in the 21st century turning into a social movement for reparative justice that rose to national prominence in the wake of the Great Recession in 2008 and of the Occupy Wall Street movement in 2011 Focus On: 100 Most Popular American Male Guitarists Wikipedia contributors, Bernie Ted

Rall, 2016-03-01 Now a NEW YORK TIMES BESTSELLER Bernie is the must have guidebook to the Bernie Sanders campaign and the uncompromising candidate behind it Insightful funny and accessible this biography in graphic novel form of the presidential candidate explains both his early life and political rise but also shows the broader political shift that made it possible for a Jewish socialist to rally voters and become a real presidential contender Political cartoonist and Kennedy Award winner Ted Rall interviewed Bernie Sanders at length for this book and delved deep into his background to create this one of a kind biography Sanders upbringing in a struggling working class family in a hardscrabble section of Brooklyn during the 1950s taught him that poverty is a disease one that affects us all Incredibly the lessons he learned back then are revolutionizing the political process this year marking the resurgence of political progressivism on the left at the same time as the two party system seems to be on the way out From McGovern's 1972 loss to Nixon to the Occupy movement Rall shows readers exactly how the American public was primed to embrace a socialist calling for a political revolution Twice the winner of the Robert F Kennedy Journalism Award and a Pulitzer Prize finalist Rall is a political cartoonist opinion columnist graphic novelist and occasional war correspondent whose work has appeared in hundreds of publications including the New York Times Washington Post Village Voice and Los Angeles Times He is the illustrator of the full length comic in Billionaires Ballot Bandits How to Steal an Election in 9 Easy Steps written by Greg Palast and the author of After We Kill You We Will Welcome You Back as Honored Guests among many other books www.tedrall.com **Focus On: 100 Most Popular**

20Th-century American Politicians Wikipedia contributors, *Hillary Clinton's Career in Speeches* Shawn J.

Parry-Giles, David S Kaufer, Xizhen Cai, 2023-09-01 Women candidates are under more pressure to communicate competence and likability than men And when women balance these rhetorical pressures charges of inauthenticity creep in suggesting the structural and strategic anti woman backlash at play in presidential politics Hillary Clinton demonstrated considerable ability to adapt her rhetoric across roles contexts genres and audiences Comparisons between Clinton's campaign speeches and those of her presidential opponents Barack Obama Bernie Sanders and Donald Trump show that her rhetorical range exceeded theirs And comparisons with Democratic women candidates of 2020 suggest they too exhibited a rhetorical range

and faced a backlash similar to Clinton Hillary Clinton's Career in Speeches combines statistical text mining methods with close reading to analyze the rhetorical highs and lows of one of the most successful political women in U.S. history Drawing on Clinton's oratory across governing and campaigning the authors debunk the stereotype that she was a wooden and insufferably wonkish speaker They marshal evidence for the argument that the sexist tactics in American politics function to turn women's rhetorical strengths into political liabilities

Toppling Trump Samuel J. Best, Jeffrey W.

Ladewig, 2024-07-05 This book tells the story of the 2020 presidential election campaign exploring how Joe Biden secured the Democratic nomination and defeated Donald Trump in the general election It argues that Democratic Party elites paved the way for Biden's victory enabling him to overcome numerous campaign missteps to defeat one of the largest wealthiest most competitive fields in history It details how elites discouraged potential rivals from entering the race orchestrated rules to truncate the field and steered voters toward Biden's candidacy both directly and indirectly It shows how they helped the Biden campaign overcome early defeats in the first several contests and turn his campaign around And it shows the critical role they played in mobilizing partisans to help Biden win the general election campaign and thwarting efforts to undermine his victory Simply put the book demonstrates that Biden would not have won the White House without maneuvering and manipulation by the Democratic establishment

Justice Is Coming Cenk Uygur, 2023-09-19 A manifesto that outlines the

progressive vision recent history and worldview by the founder of The Young Turks and co founder of Justice Democrats The media can't stop talking about the gridlock in Washington as if a handful of stubborn Republicans are the only thing standing between us and a fully functional democracy The reality is that our government was taken over by big business and their allies in both political parties The getaway driver in this heist was corporate media The good news is that the American people are very progressive And soon progressives will take over Washington as well And when they do the great majority of Americans will love it In *Justice Is Coming* The Young Turks founder Cenk Uygur presents two ideas that counter everything we hear from pundits and politicians on a daily basis one progressives are correct on all issues and two America is actually a very progressive country Millions of us know that we are a part of something larger a movement that is already transforming Washington This compulsively readable manifesto seeks to apply the momentum we have already built to a concrete progressive agenda that activists voters and citizens can all rally around It looks beyond Trump to the larger historical forces that have given us this unique political moment and explains why we should fight how we should fight and how we will win Sharp witted persuasive and inspiring calling out toxic Republicans politely ineffectual Democrats and mealy mouthed media mavens in equal measure *Justice Is Coming* will give heart to Democrats and progressives who seek to change our politics and society for the better

The Reinvention of Populist Rhetoric in The Digital Age Mark Rolfe, 2016-11-23 This highly original work considers the rhetoric of political actors and commentators who identify digital media as the means to a new era of politics and democracy Placing this rhetoric in a historical and intellectual context it provides a compelling explanation

of the reinvention and thematic recurrence of democratic discourse The author investigates the populist sources of rhetoric used by digital politics enthusiasts as outsiders inaugurating new eras of democracy with digital media such as Barack Obama and Julian Assange and explores the generations of rhetorical and political history behind them The book places their rhetoric in the context of the permanent tensions between insiders and outsiders between the political class and the populace which are inherent to representative democracy Through a theoretical and conceptual research that is historically grounded and comparative it offers rhetorical analysis of candidates for the 2016 presidential election and discusses digital democracy particularly discussing their origins in American populism and their influence on other countries through Americanization Uniquely it offers a sceptical assessment of epochal claims and a historical rhetorical account of two of the defining figures of twentieth century politics to date and reveals how modern rhetoric is grounded in an older form of anti politics and mobilises tropes that are as old as representative democracy itself

Populism in Global Perspective Pierre Ostiguy, Francisco Panizza, Benjamin Moffitt, 2020-12-30 Pathbreaking theoretically and innovative in treatment Populism in Global Perspective is a seminal addition to the literature on arguably the most controversial and fervently discussed topic in political science today The book brings together established and rising stars in the field of populism studies in an integrated set of theoretical and empirical studies centered on a discursive performative notion of populism Contributors argue that populist identification is relational and sociocultural and demonstrate the importance of studying populism phenomenologically together with anti populism The truly global series of case studies of populism in the US Western and Southern Europe Latin America South Africa the Philippines and Turkey achieves a deliberate balance of left and right instances of populism including within regions and of populism in government and opposition Written in a style approachable to students and specialists alike the volume provides a substantial foundation for current knowledge on the topic Populism in Global Perspective is a must read for comparativists political theorists sociologists area studies specialists and all educated readers interested in populism worldwide

Capitalism's Safety Net: News Media and the Far Right Peter Milonas, 2024-12-29 The influence of news coverage on the rise of far right ideologies is undeniable To better understand the potential impact of the liberal media on the development of authoritarian ultra nationalist xenophobic racist or reactionary views it is essential to explore the connection between dominant ideology and the role of news organizations in society Using my analytical framework I demonstrate how the mass media leverages the safety net to bolster far right candidates and parties and weaken radical left wing political groups and social movements particularly during capitalist crises My project goes beyond scrutinizing commercial media and critically analyzes the capitalist mode of production
