injustices in the form of covert terrorism with many players and denial of Human Rights Remote Neural Monitoring testing has also thrived within the Association of Psychiatry historically The electromagnetic assaults physical psychological and verbal continue until the target is left discredited exhausted and in poor health financially crippled or his or her life is in ruins or worse And it is legal Remote Brain Targeting confirms Pittman s credibility in this five book series which details her personal experiences and others detailing how the slow kill effect is being used today as a form of physical coercion electromagnetically All five books in the Mind Control Technology book series are a must read and a wake up call to an older generation familiar with and knowledgeable of some of these programs specifically MK ULTRA mind control testing officially in the 50s 60s and 70 s and Pittman s renewed hope to stir the consciousness of a new generation through awareness of what is factually happening today to many Today the technology has erupted into an electromagnetic invasion that is unparalleled in this day and time and heinously capable of delivery through many methods and from a considerable distance This technology is no joke A MUST READ Knowledge is Power Awareness is Key TRUTH a powerful weapon *Cults* Stephanie Alice Baker,Eugene McLaughlin,Chris Rojek,2024-06-27 This engaging text introduces readers to the sociology of cults Covering the history and current state of cult studies this book includes topics ranging from doomsday cults and new religious movements through to self help cults the cult of celebrity intellectuals and entrepreneurs Case studies as varied as David Koresh and the Branch Davidians the Manson family and the cult brands of Elon Musk Andrew Tate and Jordan Peterson are deployed to shed new light on cult formation in the twenty first century Amidst the rise of populist demagogues the online radicalisation of alienated individuals and the proliferation of celebrities and gurus with avid followings cult dynamics are everywhere in society Yet key urgent questions have not been clearly and concisely addressed What are cults Why do they emerge How are they established and maintained What is the future of cults and why are we so fascinated by them This book explores these questions by tracing the spectrum of cult formation historically and in today s networked media ecosystem This accessible introduction to the darkly fascinating world of cults is essential reading for academics and students of sociology social psychology religion politics business and cultural studies and anyone interested in understanding the relationship between cults and society *SPIRITUAL WARFARE: A Struggle for Truth* Russell Sharrock,2007-03-01 Much in the Church is being touted as biblical spiritual warfare even to changing it from being spiritual to be geographical This book critics spiritual warfare teaching comparing it to the Bible and offers a biblically reasoned discussion on spiritual warfare Bloodlines Of The Illuminati Daniel Lazar, **Malignant Narcissism and Power** Charles Zeiders,Peter Devlin,2019-12-06 Using psychodynamic theory and riveting case material this book dissects the figure of the malignant narcissist leader MNL Across the world today individuals and societies are impacted by unprecedented disruptive influences from globalization and climate change to economic uncertainty and mass migration The rise of populists and would be saviors has promised certainty for anxious populations but how far are such leaders suffering from the MNL pathology Through the

psychoanalytic lens of Otto Kernberg the authors explain the etiology of the charismatic MNL s clinical features charisma grandiosity criminality sadism and paranoia The book outlines the limitations and complexity of diagnosis contextualizing the MNL within the transcendental and millenarian movements and discusses the patho dynamics of high pressure groups and totalitarian regimes including types of groups methods of mind control categories of constituents the corporate totalitarian state and the authoritarian demagogue The book looks at a wide range of leaders including Donald Trump Bhagwan Shree Rajneesh Roger Ailes Keith Raniere Jan of Leiden and Credonia Mwerinde Distinguishing the disordered personality of the MNL from other personality disorders and presenting a new model of overlapping descriptors to categorize high pressure group types and identifying types of followers as well this book represents essential reading for psychodynamically minded psychologists psychiatrists social workers sociologists political scientists and those working in organizational development

Diary of an Angry Targeted Individual: Mind Invasive Technology (Mind Control Technology Book Series) Book 4 of 7
Renee Pittman,2014-03-31 The key to the success of weaponized beamed technology derived from the Electromagnetic Spectrum depends on several factors One of the most successful is the strategic effort to discredit victims by applying the mental illness tag and hoping it will stick For success the use of anyone around victims especially family members become crucial Renee Pittman continues her mission of exposing the hidden evil today by pulling back the shroud of secrecy This is not only done through the testimony of professionals and compiled open literature evidence but through her personal experiences and the testimony of victims both men women and even children confirming legalized ongoing human experimentation on steroids In a diary like setting the author gives explicit details of her continued day to day battle to combat covert technological terrorism She details the continued hope of many for justice system intervention and coping with the roadblocks faced as an inability to effectively litigate against a Goliath in these cases high powered government agencies of the United States of America Sadly many attorneys will not touch these difficult to prove cases due to the invisible beamed weapons being used As a result thousands of lives are being destroyed without recourse However to the dismay of those seeking to keep the widespread use of advanced psychotronic technology under wraps and its capabilities Pittman details not only its machination but also provides excellent examples of precise heinous manipulative techniques for example the creation of sexual deviance as well as a means of controlling targets and even blackmailing into submission With the focus on women many report covert efforts to turn women into sex slaves by the men of depraved minds who are some of the more perverse at the helm of these advancements The battle to bring the truth before the public continues with the assurance that the truth will ultimately prevail and inevitably always has The Routledge International Handbook of Clinical Hypnosis Julie H. Sex, God, and the Brain Andrew Newberg, 2024-08-06 For the modern world it seems as if sexuality and spirituality have always been at odds But what if the two are actually deeply connected And what if science could prove this connection From neuroscientist Andrew Newberg *Sex God and the Brain* argues that our religious and spiritual experiences derive directly from our sexual being While others have speculated on a connection between religion and sex Newberg is the first to demonstrate with groundbreaking brain scan research gained through Orgasmic Meditation studies that the underlying biological mechanism of religious spiritual and sexual experiences are identical With research technical enough for academics but explained simply enough for the everyday reader *Sex God and the Brain* will reframe our understanding of the link between spirituality and sexuality
