Most importantly, personality assessment instruments have been utilized in the pre-employment psychological screening of police officer candidates. This psychological screening takes place at the end of the hiring process to ensure that candidates do not have personality characteristics or existing psychopathology that would interfere with their job performance. Personality assessment is also used for other applications in police psychology. These applications include fitness for duty evaluations, FFDEs and second opinion evaluations of officers who challenge hiring decisions. Moreover, police psychologists are involved in a considerable amount of research in order to determine which tests and scales are most appropriate for evaluations.
