Ari Dwipayana:

The Politics of Religion in Indonesia Michel Picard, Rémy Madinier, 2011-05-13 Indonesia is a remarkable case study for religious politics. While not being a theocratic country, it is not secular either, with the Indonesian state officially defining what constitutes religion and every citizen needing to be affiliated to one of them. This book focuses on Java and Bali and the interesting comparison of two neighbouring societies shaped by two different religions: Islam and Hinduism. The book examines the appropriation by the peoples of Java and Bali of the idea of religion through a dialogic process of indigenization of universalist religions and universalization of indigenous religions. It looks at the tension that exists between proponents of local world views and indigenous belief systems and those who deny those local traditions as qualifying as a religion. This tension plays a leading part in the construction of an Indonesian religious identity recognized by the state. The book is of interest to students and scholars of Southeast Asia religious studies and the anthropology and sociology of religion.

History in Uniform Katharine E. McGregor, 2007 Under the New Order regime 1967-98 the Indonesian military sought to monopolise the production of official history and control its contents. The goal was to validate the political role of the armed forces, condemn communism and promote military values. A detailed examination of the Indonesian military's image making under Suharto.

Electoral Dynamics in Indonesia Edward Aspinall, Mada Sukmajati, 2016-04-05 How do politicians win elected office in Indonesia? To find out, research teams fanned out across the country prior to Indonesia's 2014 legislative election to record campaign events, interview candidates and canvassers and observe their interactions with voters. They found that at the grassroots, political parties are less important than personal campaign teams and vote brokers who reach out to voters through a wide range of networks associated with religion, ethnicity, kinship, micro enterprises, sports clubs and voluntary groups of all sorts. Above all, candidates distribute patronage: cash, goods and other material benefits to individual voters and to communities. *Electoral Dynamics in Indonesia* brings to light the scale and complexity of vote buying and the many uncertainties involved in this style of politics, providing an unusually intimate portrait of politics in a patronage-based system.

reviewers and vice versa The Coalitions Presidents Make Marcus Mietzner,2023-12-15 In The Coalitions Presidents Make Marcus Mietzner explains how Indonesia has turned its volatile post authoritarian presidential system into one of the world s most stable He argues that since 2004 Indonesian presidents have deployed nuanced strategies of coalition building to consolidate their authority and these coalitions are responsible for the regime stability in place today In building coalitions Indonesian presidents have looked beyond parties and parliament the traditional partners of presidents in most other countries In Indonesia actors such as the military the police the bureaucracy local governments oligarchs and Muslim groups are integrated into presidential coalitions by giving them the same status as parties and parliament But while this inclusiveness has made Indonesia s presidential system extraordinarily durable it has also caused democratic decline In order to secure the stability of their coalitions presidents must observe the vested interests of each member when making policy decisions The Coalitions Presidents Make details the process through which presidents balance their own powers and interests with those of their partners encouraging patronage oriented collaboration and disincentivizing confrontation
