Aristotle Xix Nicomachean Ethics Loeb Classical Library:

The Language of Hermeneutics Rod Coltman, 1998-08-27 The Language of Hermeneutics probes the most intense points of proximity between the philosophical hermeneutics of Hans Georg Gadamer and the poetizing thinking of his great teacher Martin Heidegger points of proximity which nevertheless show as clearly as possible the critical points of departure that set these two thinkers on separate parallel thought paths By focusing exclusively on these two thinkers respective readings of Plato Aristotle Holderlin and Hegel this book shows how Gadamer effectively deconstructs his mentor s architectonic of the history of being and retrieves from it a new mode of philosophizing that recognizes and embraces the fundamentally ironic structure of the world and boldly risks an interpretation of it *Jivanmukti in Transformation* Andrew O. Fort, 1998-09-03 Liberation mukti is a central concern in Hinduism particularly in Advaita nondual Vedanta perhaps the best known school of Hindu thought There has been vigorous debate and analysis about the possibility and nature of liberation while living jivanmukti in Advaita from the time of Sankara the school s founder to the present day While the general conclusion seems to be that one can achieve living liberation members of the Advaita tradition also regularly express reservations about or describe limitations to full liberation while embodied Jivanmukti in Transformation examines the development and transformation of the concept of jivanmukti from the Upanisads to the modern era It gives the most thorough treatment of the scholastic Advaita tradition on liberation while living makes the novel argument for a distinct Yogic Advaita tradition found in the Yogavasistha and Jivanmuktiviveka and explores the modern neo Vedanta view of jivanmukti which has been influenced by modern Western concepts like global ecumenism and humanistic social concern for all The book includes analysis of the views of modern Hindu figures such as Swami Vivekananda Sarvepalli Radhakrishnan Ramana Maharshi and Sankaracaryas of Kanchi and Sringeri and considers these thinkers in the context of current academic discussions about the encounter of India and the West **Gregory of Nyssa as Biographer** Allison L. Gray, 2021-05-17 The theologian Gregory of Nyssa wrote biographies of his sister a local bishop and Moses Allison L Gray shows that he adapts techniques from Greco Roman biographical writing in these texts to create narratives that are suited to a specifically Christian form of education focused on virtue and scriptural interpretation *The Cambridge Companion to Ancient Greek Political Thought* Stephen Salkever, 2009-04-27 The Cambridge Companion to Ancient Greek Political Thought provides a guide to understanding the central texts and problems in ancient Greek political thought from Homer through the Stoics and Epicureans Composed of essays specially commissioned for this volume and written by leading scholars of classics political science and philosophy the Companion brings these texts to life by analysing what they have to tell us about the problems of political life Focusing on texts by Homer Herodotus Thucydides Plato and Aristotle among others they examine perennial issues including rights and virtues democracy and the rule of law community formation and maintenance and the ways in which theorizing of several genres can and cannot assist political practice *Apocryphal Prophets and Athenian Poets*

Gregory R. Lanier, 2024-11-01 The first comprehensive analysis of non canonical influences Jewish non Jewish and early Christian on the formation of the New Testament writings In *Apocryphal Prophets and Athenian Poets Noncanonical Influences on the New Testament* Gregory R Lanier presents in one volume an overarching compendium and analysis of over five hundred relevant instances of non Old Testament influence on the New Testament across three categories Jewish non Jewish mostly Greco Roman and early Christian pre canonical The abundance of non canonical influences on the New Testament testifies to the breadth of apostolic cultural engagement and the scope and pace of information exchange in the early Christian circles This comprehensive work will allow scholars and students to give closer attention to the sheer complexity of the crisscrossing lines of direct and indirect influences on the New Testament Scriptures Divination and Human Nature Peter Struck, 2018-10-23 *Divination and Human Nature* casts a new perspective on the rich tradition of ancient divination the reading of divine signs in oracles omens and dreams Popular attitudes during classical antiquity saw these readings as signs from the gods while modern scholars have treated such beliefs as primitive superstitions In this book Peter Struck reveals instead that such phenomena provoked an entirely different accounting from the ancient philosophers These philosophers produced subtle studies into what was an odd but observable fact that humans could sometimes have uncanny insights and their work signifies an early chapter in the cognitive history of intuition Examining the writings of Plato Aristotle the Stoics and the Neoplatonists Struck demonstrates that they all observed how setting aside the charlatans and swindlers some people had premonitions defying the typical bounds of rationality Given the wide differences among these ancient thinkers Struck notes that they converged on seeing this surplus insight as an artifact of human nature projections produced under specific conditions by our physiology For the philosophers such unexplained insights invited a speculative search for an alternative and more naturalistic system of cognition Recovering a lost piece of an ancient tradition *Divination and Human Nature* illustrates how philosophers of the classical era interpreted the phenomena of divination as a practice closer to intuition and instinct than magic **Acheloios, Thales, and the Origin of Philosophy** Nicholas J. Molinari, 2022-05-12 Through careful analysis of the archaeological record close reading of ancient sources and deep investigations into the languages of our past this study demonstrates the importance of the influence of the cult of Acheloios on Thales fundamentally changing our understanding of the origin of the philosophical experience in 6th century Ionia **International Negotiation** Evangelos Raftopoulos, 2019-01-03 Looks at international negotiation from a novel relational international law perspective and challenges prescriptive models *Aristotle on Thought and Feeling* Paula Gottlieb, 2021-01-07 Argues that Aristotle provides an account of the interdependence of feeling desire and thought that is sui generis *Many Convincing Proofs* Stephen S. Liggins, 2016-03-21 While there have been various studies examining the contents of the evangelistic proclamation in Acts and various studies examining from one angle or another individual persuasive phenomena described in Acts e g the use of the Jewish Scriptures no individual studies have sought to identify the

key persuasive phenomena presented by Luke in this book or to analyse their impact upon the book's early audiences. This study identifies four key phenomena: the Jewish Scriptures, witnessed supernatural events, the Christian community, and Greco-Roman cultural interaction. By employing a textual analysis of Acts that takes into account both narrative and socio-historical contexts, the impact of these phenomena upon the early audiences of Acts—that is, those people who heard or read the narrative in the first decades after its completion—is determined. The investigation offers some unique and nuanced insights into evangelistic proclamation in Acts, persuasion in Acts, persuasion in the ancient world, each of the persuasive phenomena discussed, evangelistic mission in the early Christian church, and the growth of the early Christian church.
