Understanding Shadows Michael Quilligan, 2013-08-29 Vague references to the war on terror and the threat to national security are frequently used by venal politicians to cover up criminal associations and covert illegal activity ranging from money laundering narcotics trafficking abduction and murder to the wholesale slaughter of non combatant civilians glibly dismissed as collateral damage in mainstream media coverage of state terror from the Caucasus to the Middle East and the streets of European capitals while locally in towns and villages that never make headlines predatory Catholic clergy and radical Islamic academics and imams abuse trust to accommodate their personal agendas of greed lust and revenge The issues in *Understanding Shadows* include how the overweening pride of US and European intelligence agencies contributed to the development of the Islamic bomb and the proliferation of nuclear technology crime and extra judicial punishment in Russia and abroad under President Putin and how the bloody and brutal end of democratic Islam in Algeria has facilitated the fear and loathing which has dominated the West s security agenda since 9 11 The arrogance and political hubris of former British PM Tony Blair and the corrupt use of intelligence took the UK to war in Iraq and was a factor in the lonely death of WMD specialist Dr David Kelly while off stage Israel continued its colonization of occupied Arab lands and upgraded its collective punishment of Gaza There is an account of the curious journey the CIA s USSR dangle Lee Harvey Oswald made across Cold War Europe in June 1962 while the end of the apartheid regime in South Africa provided an opportunity for self serving power hungry ANC politicians to feather their own nests at the expense of the impoverished majority a depressing example of a righteous liberation struggle turned sour Meanwhile the long war continued Operation Banner was the codename given to the longest British Army deployment since 1945 In the North of Ireland where the 36 year period of active service is referred to as the Troubles clandestine military units including the murderous Force Research Unit waged a dirty war against the Provisional IRA in particular and the nationalist community in general An estimated 763 British soldiers died and over 6 000 were injured during the Troubles An awareness of the back stories to these issues is an important factor for the understanding of shadows

Stakeknife Greg Harkin, Martin Ingram, 2012-10-15 BESTSELLER An explosive expos of how British military intelligence really works from the inside The stories of two undercover agents Brian Nelson who worked for the Force Research Unit FRU aiding loyalist terrorists and murderers in their bloody work and the man known as Stakeknife deputy head of the IRA s infamous Nutting Squad the internal security force which tortured and killed suspected informers

Peace Settlements and Political Transformation in Divided Societies Adrian Guelke, 2022-10-03 Peace Settlements and Political Transformation in Divided Societies examines what happened to Northern Ireland and South Africa after their miraculous political settlements in the 1990s in which comparison between the two cases played a small but significant role The author extends the story by exploring the connections between these two deeply divided societies during the consolidation of their settlements He shows the ways in which their paths have subsequently diverged in both reality and

perception At the outset of the transformation of the two polities the similarities between the two cases tended to be overstated In this context the book explains how the South African case came to be misidentified as an example of consociationalism and the influence that this has continued to exert on comparative studies of power sharing In the process other aspects of South Africa's political transformation including respect for the constitution and the rule of law have been overlooked and underappreciated In the case of Northern Ireland a missing element in the treatment of its settlement as a model for other deeply divided societies has been the role that external mediation played in the creation and survival of its institutions Northern Ireland's dependence on favourable external circumstances explains in large part why the Good Friday Agreement is now facing a threat to its survival By contrast South Africa's political institutions seem relatively secure despite the vast scale of the country's socio economic problems This book will be of interest to students researchers and scholars of conflict resolution and peace processes comparative politics ethnic politics and democratisation as well as those involved in the governance of deeply divided societies
