fascinating look at the founders of the world's main religions. The major religious traditions of the world owe their existence to the vision of an ancient founder. This important volume explores the lives of the five founders of major world religions: Moses, Buddha, Confucius, Jesus, and Muhammad, chronicling what is actually known of these charismatic men and introducing readers to the cultural and religious worlds that heard their messages. Readers in predominantly Christian lands, in addition to learning about the lives of Confucius, Buddha, and Muhammad, whom they might not be familiar with, will also be introduced to modern research now casting fresh light on the careers of Moses and Jesus. Whether studied individually or in comparison with one another, these biographies, together with a chapter on the characteristics of religious leadership, chart the spiritual rivers that continue to feed the diversity of religious expression today.

Ancient Indian History and Civilization Sailendra Nath Sen, 1999. A single volume study of ancient Indian history delineating the various facets, both political and cultural, and incorporating the fruits of recent researches that have abundantly appeared since 1950. Has not been attempted before. Author has tried to maintain a delicate balance between political history and social, economic, and cultural history of ancient India. The book covers the pre-historic India, the Vedic Age, the post-Vedic civilization, North India in the sixth century B.C. It also explains new religious movements and their socio-economic background. Maurya Age, political disintegration, and foreign invasions, the Gupta Empire, the prominence of North India under Harshavardhana and its eclipse, Bengal under the Palas, and the Sena dynasties of North India, Arabs and Turks in India, India's intercourse with the outside world, have been discussed in depth. History of Deccan and South India, hitherto not given due weightage and culture and civilization of ancient India in all its variegated hues, have received due attention. Some new topics like espionage, slavery, guilds, urbanisation, feudalism, and science and technology in ancient India have been incorporated to make the book as up-to-date as possible. Apart from meeting the requirements of undergraduate and postgraduate students of Indian universities, the book will serve as a useful guide to candidates for civil service examination, both preliminary and main.
