Are We Alone Paul Davies:

Are We Alone? P. C. W. Davies, 1995 The search for extra terrestrial intelligence SETI raises a number of scientific philosophical questions If we are the only conscious intelligent species in the galaxy why If we are not given that other cultures must be more technically advanced than us why haven t we met them yet The Eerie Silence Paul Davies, 2010 On April 8 1960 a young American astronomer Frank Drake turned a radio telescope toward the star Tau Ceti and listened for several hours to see if he could detect any artificial radio signals With this modest start began a worldwide project of potentially momentous significance Known as SETI Search for Extraterrestrial Intelligence it is an amalgam of science technology adventure curiosity and a bold vision of humanity s destiny Drake has said that SETI is really a search for ourselves who we are and what our place might be in the grand cosmic scheme of things Yet with one tantalizing exception SETI has produced only negative results After millions of hours spent eavesdropping on the cosmos astronomers have detected only the eerie sound of silence What does that mean Are we in fact alone in the vastness of the universe Is ET out there but not sending any messages our way Might we be surrounded by messages we simply don t recognize Is SETI a waste of time and money or should we press ahead with new and more sensitive antennas Or look somewhere else And if a signal were to be received what then How would we or even should we respond Are We Alone?
