Instructions by the Director of Operations for Opening Fire in Northern Ireland

1. These instructions are for the guidance of Commanders and troops operating collectively or individually. When troops are operating collectively soldiers will only open fire when ordered to do so by the Commander on the spot.

General Rules

2. Never use more force than the minimum necessary to enable you to carry out your duties.
3. Always first try to handle the situation by other means than opening fire. If you have to fire:
 - a. Fire only aimed shots.
 - b. Do not fire more rounds than are absolutely necessary to achieve your aim.
4. Your magazine/belt must always be loaded with live ammunition and be fitted to the weapon. Unless you are about to open fire no live round is to be carried in the breech, and the working parts must be forward. Company Commanders and above may, when circumstances in their opinion warrant such action, order weapons to be cocked, with a round in the breech where appropriate, and the safety catch at safe.
5. Automatic fire may be used against identified targets in the same circumstances as single shots if, in the opinion of the Commander on the spot, it is the minimum force required and no other weapon can be employed as effectively. Because automatic fire scatters it is not to be used where persons not using firearms are in, or may be close to, the line of fire.
