VINCENT, 2025-03-14 Once again we have written our ideas on Trouser Cutting The system herein described is so simple that the veriest novice may learn it and cut smart fitting garments by it after a few hours study but at the same time embracing problems so difficult that many of them still remain unsolved We trust and believe this work will be found an advance on all our previous efforts The Essay which won the Federation Prize was our first attempt and of this the Secretary of the Federation wrote The very exhaustive nature of the first part of this elaborate essay is in itself an excellent work upon Trouser Cutting in every shape and from added to this the elaborate treatment of objects with so many excellent diagrams completes a work upon cutting that has no rival As edition after edition was sold out we revised and enlarged upon the principals there laid down and now after a lapse of fourteen years we have remodelled the system greatly improving it in certain directions simplifying it where possible and illustrating its application to a large number of styles never before treated in this way If the verdict of the trade on our first effort was a favourable one we have little doubt it will be equally appreciative of this one which not only contains the results of the research and experience of our younger years but also the fruit of the maturer thought of added years and enlarged experience This work whilst being complete in itself and thoroughly exhausting its own theme forms part of a series of books treating of every phase of a cutter's experience by the aid of which we hope to place in the hands of the young man who aspires to a position in the cutting room a book which will supply him with information of a practical and helpful character under every circumstance of his professional life Patten's Army Manual George Washington Patten, 1868 **The Cutter's Practical Guide, Part 4** W. D. F. Vincent, 2025-04-15 The work we have now completed which will be placed before the members of an intelligent profession is essentially the outcome of practical experience in the high class livery trade But as the experience of one on so wide a topic as all kinds of Liveries must of necessity be of a limited nature we have gladly availed ourselves of a large circle of trade friends many of whom are engaged in some of the most noted Livery trades in this great City of London Many of these have materially helped in the preparation of this work for which we extend to them our hearty thanks feeling assured that the ideas and hints gained from such sources have such a practical bearing on the subject of Liveries that the value of the work has been largely enhanced thereby We have spared neither trouble nor pains to

make this work as complete as possible and trust it will supply a feeling of want in tailoring establishments
