

BIOMES

LANEY LEE

BIOMES

Take a closer look at the images above. Each is home to a variety of plants and animals, but no two are the same. Although they're all capable to life, there are quite a lot of differences too. Many of these differences are **abiotic**, or have to do with the non-living parts of the environment. Abiotic factors include temperature, the amount of oxygen in the air or water, and the kind of soil present.

infer, or make your best guess, about some of the abiotic factors in each of the images.

Location	Temperature	Amount of rainfall
A		
B		
C		

Specifying these locations are all home to many trees, or living, factors as well. What kinds of species do you think live in each of these places? Feel free to list plants, animals, birds, fish, insects, and even microscopic life like bacteria!

Location	Species Living There
A	

BIOMES

Chaparral

Tundra

Lastly, the **chapparral** biome is a coastal biome with hot, dry summers and mild winters. It has mostly shrubs with a few short trees. Deer, birds, and rabbits live in the chapparral.

Tundra When we think of deserts, we usually think of a hot and dry place, but did you know that deserts can be cold too? The **Tundra** in Alaska is the largest cold desert, but there is so much snow (and) that it's still considered a desert. Both plants and animals must adapt to dry life in the desert. Many develop unique ways of surviving such as water storage.

BIOMES

Answer the following questions using the world map.

1. Which land biome is the largest?
2. Which continents have this biome on them?
3. Which continent has the most different biomes?
4. What biomes does it have?
5. Name 3 biomes present in Africa.
6. Name 3 continents with mountain forests.

BIOMES

7. Where is the tundra?
8. Where is the chaparral?
9. Based on the map, which biome is the largest?
10. Which biome is the smallest?
11. Which biome is the most diverse?
12. Name another biome.

Biome	Weather/Climate	Plants & Animals	Geographic Location(s)
Marine

Savanna			
Temperate Grassland			

BIOMES

Temperate Grassland

Desert

Rainforest

Forest

extremely nutrient rich soil. Here you'll find a variety of plants and animals. Due to their dry and hot climate, plants in both savanna and grasslands are adapted to survive relatively common fires.

Desert When we think of deserts, we usually think of a hot and dry place, but did you know that deserts can be cold too? The **Desert** in Alaska is the largest cold desert, but there is so much snow (and) that it's still considered a desert. Both plants and animals must adapt to dry life in the desert. Many develop unique ways of surviving such as water storage or the ability to remain dormant (similar to hibernation) for a long time.

Forest There are several different kinds of forest biomes, including: The **rainforest** is most likely the most famous forest. This lush biome is home to a wide variety of plants and animals. The average height of a tree in a rainforest is 100m (330ft). Rainforests are home to a wide variety of plants and animals. The average height of a tree in a rainforest is 100m (330ft). Rainforests are home to a wide variety of plants and animals. The average height of a tree in a rainforest is 100m (330ft).

The **temperate forest** is common in the US, Canada, Europe, and Asia. Here you'll find a variety of plants and animals. The average height of a tree in a temperate forest is 30m (100ft). Temperate forests are home to a wide variety of plants and animals. The average height of a tree in a temperate forest is 30m (100ft).

BIOMES

Earth is an amazing planet. It has many different environments that make perfect homes for millions of species. The largest major habitats that exist worldwide are known as **biomes**. Most likely, you're familiar with many of these: desert, rainforest, grassland, etc. Each biome is unique and has its own set of characteristics that make it different from the others. The study of biomes is called **biogeography**, or the amazing variety of life that makes our Earth so abundant in biodiversity.

How many biomes are there? Do all water environments constitute a single aquatic biome? Are all fire-filled ecosystems considered a forest biome? The number of biomes you could simply depend on how specific you'd like to be. Let's take a look at some of the largest biomes, and the abiotic and biotic factors that define them.

Marine

Freshwater

Savanna

For fish, birds, frogs, whales, and other aquatic species.

Desert

Aquatic Biomes Since water covers over 70% of the Earth, the largest biomes are the aquatic biomes. Marine biomes include coral reefs and estuaries, but the two major ones are the marine and freshwater biomes. The **marine** biome, made up of the world's oceans, is so big it's usually divided into **deep** or **shallow**. Estuaries, or the deep sea, is actually a times larger than all of Earth's other biomes combined. The movement of water in the marine biome creates ocean currents which play a major role in creating weather.

Smaller **freshwater** biomes consist of lakes, ponds, and rivers. These are often just the marine biomes because they do not contain salt. Freshwater biomes are especially important to us humans as they provide the water that we use to drink. All aquatic biomes provide homes for diverse plant and animal life. Fish, birds, frogs, whales, and other aquatic species.

Grassland Grassland biomes live up to their name! They're made up of flat and very few trees. The two major grassland biomes are the **savanna** and **temperate grassland**. The **savanna** is a biome that covers half of Africa and large parts of Australia. These areas have a 6-8 month wet season in the summer and a 4-6 month dry season. Elephants, giraffes, and other animals live in the savanna. The **temperate grasslands**, on the other hand, make up the plains of middle America.

BIOMES

Answer the following questions using the world map.

1. What is a biome?
2. Is weather a biotic factor or an abiotic factor? How do you know?

could find in a marine ecosystem.

marine and freshwater ecosystems.

at **adapt** (or change) to survive. For example, polar bears have to adapt to survive in their cold environment. What animals need to survive in the desert?

the biome including the plants, animals, and landforms.

Biome Study Guide High School Introduction

In this digital age, the convenience of accessing information at our fingertips has become a necessity. Whether its research papers, eBooks, or user manuals, PDF files have become the preferred format for sharing and reading documents. However, the cost associated with purchasing PDF files can sometimes be a barrier for many individuals and organizations. Thankfully, there are numerous websites and platforms that allow users to download free PDF files legally. In this article, we will explore some of the best platforms to download free PDFs. One of the most popular platforms to download free PDF files is Project Gutenberg. This online library offers over 60,000 free eBooks that are in the public domain. From classic literature to historical documents, Project Gutenberg provides a wide range of PDF files that can be downloaded and enjoyed on various devices. The website is user-friendly and allows users to search for specific titles or browse through different categories. Another reliable platform for downloading Biome Study Guide High School free PDF files is Open Library. With its vast collection of over 1 million eBooks, Open Library has something for every reader. The website offers a seamless experience by providing options to borrow or download PDF files. Users simply need to create a free account to access this treasure trove of knowledge. Open Library also allows users to contribute by uploading and sharing their own PDF files, making it a collaborative platform for book enthusiasts. For those interested in academic resources, there are websites dedicated to providing free PDFs of research papers and scientific articles. One such website is Academia.edu, which allows researchers and scholars to share their work with a global audience. Users can download PDF files of research papers, theses, and dissertations covering a wide range of subjects. Academia.edu also provides a platform for discussions and networking within the academic community. When it comes to downloading Biome Study Guide High School free PDF files of magazines, brochures, and catalogs, Issuu is a popular choice. This digital publishing platform hosts a vast collection of publications from around the world. Users can search for specific titles or explore various categories and genres. Issuu offers a seamless reading experience with its user-friendly interface and allows users to download PDF files for offline reading. Apart from dedicated platforms, search engines also play a crucial role in finding free PDF files. Google, for instance, has an advanced search feature that allows users to filter results by file type. By specifying the file type as "PDF," users can find websites that offer free PDF downloads on a specific topic. While downloading Biome Study Guide High School free PDF files is convenient, its important to note that copyright laws must be respected. Always ensure that the PDF files you download are legally available for free. Many authors and publishers voluntarily provide free PDF versions of their work, but its essential to be cautious and verify the authenticity of the source before downloading Biome Study Guide High School. In conclusion, the internet offers numerous platforms and websites that allow users to download free PDF files legally. Whether its classic

literature, research papers, or magazines, there is something for everyone. The platforms mentioned in this article, such as Project Gutenberg, Open Library, Academia.edu, and Issuu, provide access to a vast collection of PDF files. However, users should always be cautious and verify the legality of the source before downloading Biome Study Guide High School any PDF files. With these platforms, the world of PDF downloads is just a click away.

FAQs About Biome Study Guide High School Books

What is a Biome Study Guide High School PDF? A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a Biome Study Guide High School PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. **How do I edit a Biome Study Guide High School PDF?** Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a Biome Study Guide High School PDF to another file format?** There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobats export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a Biome Study Guide High School PDF?** Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
