Biometrics Identity Assurance In The Information Age:

Encyclopedia of Computer Science and Technology Harry Henderson, 2009 Presents an illustrated A Z encyclopedia containing approximately 600 entries on computer and technology related topics Biometrics Joseph Pugliese, 2012-12-06 Biometric technologies such as finger or facial scan are being deployed across a variety of social contexts in order to facilitate and guarantee identity verification and authentication In the post 9 11 world biometric technologies have experienced an extraordinary period of growth as concerns about security and screening have increased This book analyses biometric systems in terms of the application of biopolitical power corporate military and governmental on the human body It deploys cultural theory in examining the manner in which biometric technologies constitute the body as a target of surveillance and as a data information object The book thereby provides a comprehensive overview and critical analysis of both the local and global ramifications of biometric technologies *Global Surveillance and Policing* Elia Zureik, Mark Salter, 2013-01-11 Since the 9 11 attacks in North America and the accession of the Schengen Accord in Europe there has been widespread concern with international borders the passage of people and the flow of information across borders States have fundamentally changed the ways in which they police and monitor this mobile population and its personal data This book brings together leading authorities in the field who have been working on the common problem of policing and surveillance at physical and virtual borders at a time of increased perceived threat It is concerned with both theoretical and empirical aspects of the ways in which the modern state attempts to control its borders and mobile population It will be essential reading for students practitioners policy makers **Handbook of Biometrics** Anil K. Jain, Patrick Flynn, Arun A. Ross, 2007-10-23 Biometrics is a rapidly evolving field with applications ranging from accessing one's computer to gaining entry into a country The deployment of large scale biometric systems in both commercial and government applications has increased public awareness of this technology Recent years have seen significant growth in biometric research resulting in the development of innovative sensors new algorithms enhanced test methodologies and novel applications This book addresses this void by inviting some of the prominent researchers in Biometrics to contribute chapters describing the fundamentals as well as the latest innovations in their respective areas of expertise *Applied Cryptography for Cyber Security and Defense: Information Encryption and Cyphering* Nemati, Hamid R., Yang, Li, 2010-08-31 Applied Cryptography for Cyber Security and Defense Information Encryption and Cyphering applies the principles of cryptographic systems to real world scenarios explaining how cryptography can protect businesses information and ensure privacy for their networks and databases It delves into the specific security requirements within various emerging application areas and discusses procedures for engineering cryptography into system design and implementation *The Future of Election Administration* Mitchell Brown, Kathleen Hale, Bridgett A. King, 2019-06-25 Stakeholders in the operation of American elections are keenly focused on policy reform resource allocation administrative professionalism voter access and accessibility equipment security

and system integrity

The Future of Election Administration is an edited volume that gathers the perspectives of today's most forward thinking practitioners and experts of policy advocacy and research about the importance of particular election practices the professional and operational challenges that election administrators and voter registrars face and emerging issues in the field Through its combination of multiple perspectives to describe analyze and anticipate key dynamics and dilemmas as well as its emphasis on the practical aspects of administration this book makes a unique contribution to the election administration literature

Securitizations of Citizenship Peter Nyers, 2009-05-19 *Securitizations of Citizenship* investigates how the fate of citizenship is now caught up in a dramatic and dangerous process of securitizing political communities In the nervous state of affairs of the post 9 11 period technologies of surveillance and control are rapidly proliferating creating severe constraints for the enactment of citizenship practices While citizenship has always faced the problem of exclusiveness the contemporary relationship between security territory and population is being transformed in ways that are creating new dynamics of exclusion for citizens non citizens and quasi citizens alike This book assesses a variety of citizenship practices in relation to the emergence of forms of governance that are responsive to and constitutive of fears anxieties and insecurities in the population At the same time the book identifies and assesses citizenship practices for how they can mobilize progressive forces to militate against the nervous anxious and fearful subjectivities instigated by newly securitized sovereignties In the critical spaces between inclusion and exclusion migration and mobility security and surveillance reason and neurosis biopower and sovereign power the contributors to this book reflect upon the possibilities and constraints for refiguring citizenship today

Real World AI Ethics for Data Scientists Nachshon (Sean) Goltz, Tracey Dowdeswell, 2023-04-13 In the midst of the fourth industrial revolution big data is weighed in gold placing enormous power in the hands of data scientists the modern AI alchemists But great power comes with greater responsibility This book seeks to shape in a practical diverse and inclusive way the ethical compass of those entrusted with big data Being practical this book provides seven real world case studies dealing with big data abuse These cases span a range of topics from the statistical manipulation of research in the Cornell food lab through the Facebook user data abuse done by Cambridge Analytica to the abuse of farm animals by AI in a chapter co authored by renowned philosophers Peter Singer and Yip Fai Tse Diverse and inclusive given the global nature of this revolution this book provides case by case commentary on the cases by scholars representing non Western ethical approaches Buddhist Jewish Indigenous and African as well as Western approaches consequentialism deontology and virtue We hope this book will be a lighthouse for those debating ethical dilemmas in this challenging and ever evolving field

Security Technology Dominik Slezak, 2009-11-24 This volume constitutes the selected papers of the International Conference on Security Technology SecTech 2009 held as part of the Future Generation Information Technology Conference FGIT 2009 Jeju Island Korea in December 2009

Global E-Security Hamid Jahankhani, Kenneth Revett, Dominic Palmer-Brown, 2008-06-21 In today's society where technology is

ubiquitous protecting ourselves with firewalls is as important as defending ourselves with firepower New technology is providing criminals with a world of opportunity while law enforcement agencies all over the world are struggling to cope E security is an issue of global importance In many ways cybercrime is no different to more traditional types of crime both involve identifying targets using surveillance and psychological profiling of potential victims The major difference is that the perpetrators of cybercrime are increasingly remote to the scene of their crime and that in some cases their victims may not even realize that a crime is taking place Knowledge of the techniques being used by criminals and the technology and training available to combat them is essential in fighting cybercrime Establishing dialogue between crime fighting agencies the security industry researchers and experts can provide a platform from which e security can be examined from several global perspectives
