Beneath the Black Sun of Cabinda Virginie Mouanda Kibinde, 2015-11-30 The story opens at a time when Cabinda a small African enclave surrounded by the Congo and the Democratic Republic of the Congo and separated from Angola by the Congo River is plunged into bloody war Deep in the heart of Cabinda is the Mayombe rainforest home to a group of guerrilla fighters whose very existence is to liberate their land from the terrors perpetrated by the Angolan army Against that backdrop of massacres and deforestation and written with crusading fervour this novel is much more than a political tract It is a powerful story of impossible love the poignant love of the principled young doctor Albino for the country lass Maria the redemptory love which his ailing ruthless grandfather Santos is surprised to feel as death approaches and the love of a dispossessed people for the land of their birth Recommended reading then for lovers of African literature as well as for scholars and adepts of colonial and postcolonial literature

The Land of Sunshine, 1898 BLACK SUN - the Mythological Background of National Socialism Ian Tinny, Thurston Howell III, American Psychopath Association, Rex Curry, BLACK SUN sheds new light on the sources of Nazi ideology by examining its occult roots in the world of myths symbols and fantasies It traces this development from the writings of various mystics in the early 20th century who propagated the mythology of a superior global ideology whose heroes would fight the forces of moral decadence and greed The book uses rare archival photographs and sources to chronicle how the Nazis used these mythological foundations to develop Nazism as a political

religion While BLACK SUN documents the nationalist mystical beliefs that infused National Socialism the book also reveals the disturbing perpetuation of these beliefs among certain political groups today in Germany and worldwide reflecting an ongoing search for salvation inspiration and messianic leaders This eye popping expose juxtaposes the polarization in German national history between an obsession with capturing light in all its symbolic uses in order to battle the darkness of the Others The final lesson that Black Sun implies and what makes it a provocative and interesting book for a number of audiences whether scholars and students of history or iconography is the danger of not knowing one s own history In this sense the title signals not only the recurrent theme of evil throughout history but also the need to shed light upon all its manifestations
