Biodesulfurization in Petroleum Refining Nour Shafik El-Gendy,Hussein Mohamed Nabil Nassar,2018-11-14 From basic tenets to the latest advances this is the most comprehensive and up to date coverage of the process of biodesulfurization in the petroleum refining industry Petroleum refining and process engineering is constantly changing No new refineries are being built but companies all over the world are still expanding or re purposing huge percentages of their refineries every year year after year Rather than building entirely new plants companies are spending billions of dollars in the research and development of new processes that can save time and money by being more efficient and environmentally safer Biodesulfurization is one of those processes and nowhere else it is covered more thoroughly or with more up to date research of the new advances than in this new volume from Wiley Scrivener Besides the obvious benefits to biodesulfurization there are new regulations in place within the industry with which companies will over the next decade or longer spend literally tens if not hundreds of billions of dollars to comply Whether for the veteran engineer needing to update his or her library the beginning engineer just learning about biodesulfurization or even the student in a chemical engineering class this outstanding new volume is a must have Especially it covers also the bioupgrading of crude oil and its fractions biodenitrogenation technology and application of nanotechnology on both biodesulfurization and biodenitrogenation technologies *Energy Research Abstracts* ,1989

Cornell University Courses of Study Cornell University,2006 *Hairy Roots* Vikas Srivastava,Shakti Mehrotra,Sonal Mishra,2018-11-27 The growing scale of plant based chemicals for industrial use has generated considerable interest in developing methods to meet their desired production levels Among various available strategies for their production the development of Agrobacterium rhizogenes mediated hairy root cultures HRCs is generally considered the most feasible approach Additionally several proof of principle experiments have demonstrated the practical feasibility of HRCs in the plant based remediation of environment pollutants biotransformation of important compounds and production of therapeutic proteins Given that hairy root biotechnology has now been recognized as a promising and highly dynamic research area this book offers a timely update on recent advances and approaches hairy roots as a multifaceted biological tool for various applications Further it seeks to investigate the loopholes in existing methodologies identify remaining challenges and find potential solutions by presenting well thought out scientific discussions from various eminent research groups working on hairy root biotechnology This book provides detailed

conceptual and practical information on HRC based research along with relevant case studies The content is divided into three broad sections namely i Hairy Roots and Secondary Metabolism ii Progressive Applications and iii Novel Approaches and Future Prospects By informing the research and teaching community about the major strides made in HRC based interventions in plant biology and their applications the book is sure to spark further research in this fascinating field
