He has the income statement from last year and the following information from the company's financial reports as well as some industry averages.

- Last year, J&H Corp. reported a book value of \$600 million in current assets, of which 25% is cash, 27% is short-term investments, and the rest is accounts receivable and inventory.
- The company reported \$510.0 million of current liabilities including accounts payable and accruals. Interestingly, the company had no notes payable claims last year. There were no changes in the accounts payables during the reporting period.
