All-Purpose truck tires are widely used for combination on- and off-the-road work. The new All-Purpose with center rib construction is a popular tire for logging operations, oil field service, farm trucking, gravel hauling and general dump truck work. These tires are excellent for trucks that must be used part time on unimproved roads or where there are no roads at all. At the same time they give long mileage on improved or paved roads. Big heavy cleats are designed to provide excellent traction in mud and smooth running on hard surfaces.

In sizes of 8 or more plies, a patented BFG nylon shock shield between the tread and rayon cord body protects these tires against rock bruises or other impacts. Sizes 8.25-20 and larger have two shock shields to provide additional protection for toughest conditions.
