GAINED FROM OPERATIONAL EXPERIENCE IN VIETNAM

MAY-JUNE 1968

FOR OFFICIAL USE ONLY

The last factor, but far from least important to the enemy's mine and booby-trap program, is his source of supply from friendly trash. All items considered unusable by free world forces must be completely destroyed or properly disposed of. Figure 2 shows one example of the results of an improperly policed friendly area of operations. Discarded C-ration/soda cans are also commonly used in a type of booby-trap which is constructed with an M26 grenade. The safety pin is removed and the grenade is put in the can. When the can is disturbed, the grenade slips out, the spoon pops and the grenade detonates.

Figure 2.--Shown is a VC grenade made from locally available materials including a carelessly discarded "Coke" can.
