The Personalization of Democratic Politics and the Challenge for Political Parties William P Cross, Richard S Katz, Scott Pruyssers, 2018-09-16 The implications of the personalization of politics are necessarily widespread and can be found across many different aspects of contemporary democracies Personalization should influence the way campaigns are waged how voters determine their preferences how officials e.g. MPs and institutions e.g. legislatures and governments function and the place and operations of political parties in democratic life However in an effort to quantify the precise degree of personalization over time and to uncover the various causes of personalization the existing literature has paid little

attention to many of the important questions regarding the consequences of personalization. While the chapters throughout this volume certainly document the extent of personalization, they also seek to address some fundamental questions about the nature of personalization, how it is manifested, and its consequences for political parties, governance, representation, and the state of democracy more generally. Indeed, one of the primary objectives of this volume is to speak to a very broad audience about the implications of personalization. Those interested in election campaigns, voting, gender, governance, legislative behaviour, and political parties will all find something of value in the contributions that follow.

Politics of Party Leadership William P. Cross, From Party Politics to Personalized Politics? Gidon Rahat, Ofer Kenig, 2018. This volume examines two major developments in contemporary democratic politics: the change in party-society linkage and political personalization and their relation to each other.

Multiculturalism in a Cross-national Perspective Michael A. Burayidi, 1997. This book provides a discussion of multiculturalism from a global perspective. It progresses from a discussion of the ideological and philosophical arguments for multiculturalism through its political, public policy, and socio-economic dimensions. Multicultural practices from Canada, Germany, India, Israel, Nigeria, Rwanda, the United Kingdom, and the United States are discussed. The response to multiculturalism differs from one country to the other and is influenced by the political context, rules of immigration, colonial legacy, domestic institutional structures, and pressure from interest groups. Because multiculturalism is a contentious issue, as groups vie for limited resources, the debate on multiculturalism will be a heated one. Governments can facilitate the process by creating an environment that enables the exchange of ideas without conflict and antagonism.

Party Reform Anika Gauja, 2017. This book explains why and how political parties in several advanced democracies are undertaking high-profile organizational reforms.

Democracy and the Cartelization of Political Parties Richard S. Katz, Peter Mair, 2018-07-04. Political parties have long been recognized as essential institutions of democratic governance. Both the organization of parties and their relationships with citizens, the state, and each other have evolved since the rise of liberal democracy in the 19th and early 20th centuries. Going into the 21st century, it appears that parties, losing popular support, are putting both parties and potentially democracy in peril. This book traces the evolution of parties from the model of the mass party through the catch-all party model to argue that by the late 20th century, the principal governing parties and their allied smaller parties collectively, the political mainstream, were effectively forming a cartel in which the form of competition might remain and indeed even appear to intensify while its substance was increasingly hollowed out. The spoils of office were increasingly shared rather than restricted to the temporary winners; contentious policy questions were kept off the political agenda, and competition shifted from large questions of policy to minor questions of managerial competence. To support this cartel, the internal arrangements of parties changed to privilege the party in public office over the party on the ground. The unintended consequence has been to stimulate the rise of extra-cartel challengers to these cozy arrangements in the form of anti-party system parties and populist oppositions on the left but especially on the right.
