Architecture Design Manual

Paul v Naredi-Rainer, Oliver Hilger

Architecture Design Manual:

Office Buildings Thomas Arnold, 2002 With some 70 international examples the authors and editors show how the new issues facing architects can be resolved Thematic contributions by experts in various disciplines discuss topics such as models of work organisation fa ade technology climatic regulation lighting etc This volume is a crucial standard work in the design of offices

Industrial Buildings Jürgen Axel Adam, Katharina Hausmann, Frank Jüttner, Klaus Daniels, 2004-12-31 Building structures to house the logistical and manufacturing processes of industry is one of the largest and most widespread architectural assignments The complex functional requirements are often fulfilled by typified or modular solutions The organization of industrial processes together with the wide range of designs and building methods are clearly and practically treated in this design atlas A systematic section presents the typology the technical and logistical elements of industrial building In the subsequent section some 70 designs are described and analysed Special emphasis is placed on those functions and procedures that inform the design such as production montage storage and distribution Jürgen Adam is Director of the Institute for Design and Construction at the University of Stuttgart As an architect and teacher he has followed closely developments in international industrial building as have the contributing authors among others Gunther Henn Klaus Daniels and Fritz Haller

Drawings for Architects Natascha Meuser, 2015 The drawing architect for centuries this term was just as tautological as the baking baker or the gardening gardener Nevertheless in this compendium one has to begin with reference to the fact that the acquisition of drawing skills is by no means a minor field of study for architects Design methodology also referred to as methodology of space and the representation of the human body plays an important role once more in the present day field of architectural activity This book explores options for illustration as well as contemporary practice with architectural presentation It deals with the following topics The history and theory of architectural drawing covering a wide spectrum of issues in terms of art and architectural history examples are provided by two design collections ten architects present their architectural concepts based on a selection of drawing and presentation techniques ten exercises for freehand drawing demonstrative examples and practical exercises which illustrate technical drawing and the fundamental principles of perspective

Schools and Kindergartens Mark Dudek, 2007-03-02 The importance of education in a global economy is undisputed and in the wake of international assessment studies schools and kindergartens have become the focus of considerable public interest As a new generation of educational environments are designed and built this Design Manual helps architects to grasp the underlying educational theories and how they can be realized in built form so that the building fulfils its role as a 3 dimensional curriculum plan Over 80 international case studies covering all school types are examined and explained in the context of varying national and cultural education approaches Among the key themes analyzed are the impact of modern communication technology acoustic and lighting design sustainability internal circulation and outdoor spaces renovation and adaptation to changing requirements

Museum Buildings Hans Wolfgang Hoffmann, 2016-03 The

museum as a building type and architectural space bear a complex relationship to each other Architecture competes with the exhibited objects on the one hand and gives way to them on the other enabling the museum to develop as regards content This manual guide has its point of departure between both poles and targets both designers and users The aim of the publication is to facilitate communication in the planning process of a museum whether this is during the conceptual stage the competition or the design and construction phase In addition to an introduction on the architectural history of the museum the authors examine the key planning parameters involved in the conception and design of a contemporary museum Buildings and projects provide inspiration for individual design work 0 Museum Buildings Paul v Naredi-Rainer, Oliver Hilger, 2004 Museums are architectural trend setters Culture sponsoring and their increasing role as tourist attractions are guarantees for an ongoing boom in museum construction A tradition and typology developed over the centuries the experience gained in recent decades and cutting edge technology all contribute to the practice of modern day museum building History and form site development floor plan air conditioning and climate technology are just some examples of the subjects treated systematically in the first section of this design manual Some 70 international museum case studies exemplify solutions and emphasize specific museum design issues such as spatial organisation and arrangement and lighting Paul von Naredi Rainer is an expert on the subject of museum construction and author of the widely read *Architektur und Harmonie* Architecture and Harmony Herbert Pfeiffer Helmut F O M 1 4ller and Hans J 1 4rgen Schmitz teach at Dortmund University Oliver Hilger and Gerhard Kahlert at RWTH Aachen **Drawing for Landscape Architects** Sabrina Wilk, 2014 Few other professions can match landscape architecture s requirement graphically to represent and communicate so much content and so many ideas From large scale master plans and strategic visions design concepts and outdoor experiences to specific vegetation and precise construction details at some point everything has to be explained on paper This handbook focuses on two areas which even in the age of digital media are still staples of the profession orthographic projections and blackline drawings Intended to be both instructional and inspirational this book covers the basics of landscape architectural representation hand drawing and sketching in an easy to understand way encouraging readers to draw their ideas and develop their own graphic language and style Showcased in these pages are many drawings from international landscape architecture offices offering practical guidance and numerous examples in key thematic areas Basics of orthographic and parallel projections Introduction to drawing tools applications and effects Symbols in different scales styles and abstraction levels Drawing perspectives constructed and free hand Basic principles for layout and lettering Architecture ,1962

Research and Technology Buildings Hardo Braun, Dieter Grömling, 2005-04-08 A handbook on planning and designing architecture for research and technology with 70 up to date international case studies of built works by architects such as Foster and Partners Nicholas Grimshaw Herzog de Meuron Sauerbruch Hutton and Nicholas Grimshaw A Design Manual Rainer Hascher, Simone Jeska, Birgit Klauck, 2002 Offices as a category of building have probably faced more challenges and

undergone more dramatic changes in the last few years than most other kinds of buildings Here the authors show how the new issues facing architects can be solved
