Arguments of Heart and Mind Jan Montefiore,2002 Amitav Ghosh is an authoritative critical introduction to the fictional and non fictional writings of one of the most celebrated and significant literary voices to have emerged from India in recent decades It is the first full length study of Amitav Ghosh s work to be available outside India Encompassing all of Ghosh s fictional and non fictional writings to date this book takes a thematic approach which enables in depth analysis of the cluster of themes ideas and issues that Ghosh has steadily built up into a substantial intellectual project This project overlaps significantly with many of the key debates in postcolonial studies and so this book is both an introduction to Ghosh s writing and a contribution to the development of ideas on the postcolonial in particular its relation to postmodernism Amitav Ghosh is for students and teachers of postcolonial literatures in English at both undergraduate and postgraduate levels **Queerly Classed** Susan Raffo,1997 This collection of thoughtful courageous and honest essays explores the intersections of class background social status and queerness challenging the often narrow and rigid definition of gay and lesbian community Queerly Classed highlights the voices of those whose experiences of class combined with race ethnicity gender ability and age to explode stereotypes of queers aspiring to assimilate into the mainstream of the American middle class Asian American Poets Guiyou Huang,2002-05-30 Even though Asian American literature is enjoying an impressive critical popularity attention has focused primarily on longer narrative forms such as the novel And despite the proliferation of a large

number of poets of Asian descent in the 20th century Asian American poetry remains a neglected area of study Poetry as an elite genre has not reached the level of popularity of the novel or short story partly due to the difficulties of reading and interpreting poetic texts The lack of criticism on Asian American poetry speaks to the urgent need for scholarship in this area since perhaps more than any other genre poetry most forcefully captures the intense feelings and emotions that Asian Americans have experienced about themselves and their world This reference book overviews the tremendous cultural contributions of Asian American poets Included are alphabetically arranged entries on 48 American poets of Asian descent most of whom have been active during the latter half of the 20th century Each entry begins with a short biography which sometimes includes information drawn from personal interviews The entries then discuss the poet's major works and themes including such concerns as family racism sexism identity language and politics A survey of the poet's critical reception follows In many cases the existing criticism is scant and the entries offer new readings of neglected works The entries conclude with bibliographies of primary and secondary texts and the volume closes with a selected general bibliography

The Greenwood Encyclopedia of Asian American Literature Guiyou Huang, 2008-12-30 Asian American literature dates back to the close of the 19th century and during the years following World War II it significantly expanded in volume and diversity Monumental in scope this encyclopedia surveys Asian American literature from its origins through 2007 Included are more than 270 alphabetically arranged entries on writers major works significant historical events and important terms and concepts Thus the encyclopedia gives special attention to the historical social cultural and legal contexts surrounding Asian American literature and central to the Asian American experience Each entry is written by an expert contributor and cites works for further reading and the encyclopedia closes with a selected general bibliography of essential print and electronic resources While literature students will value this encyclopedia as a guide to writings by Asian Americans the encyclopedia also supports the social studies curriculum by helping students use literature to learn about Asian American history and culture as it pertains to writers from a host of Asian ethnic and cultural backgrounds including Afghans Chinese Japanese Koreans Filipinos Iranians Indians Vietnamese Hawaiians and other Asian Pacific Islanders The encyclopedia supports the literature curriculum by helping students learn more about Asian American literature In addition it supports the social studies curriculum by helping students learn about the Asian American historical and cultural experience
