A Conservative's Treatise on American Government Eric Hines, 2012-06-28 A Conservative's Treatise on American Government brings with the meaning of the Constitution's core which holds the keys to successful republican governance. The book then describes their distortion by the Federal government's three branches followed by one modern Conservative's view of the corrections needed to return our government to working for us. Finally, the book is a clarion call for all Americans to confirm the realignment elections of 2010 in 2012 and beyond. The author finishes with this challenge from Leonidas to one who demand he lay down the implements of Greek freedom: Come and take them.

Politics and Economic Policy in Yugoslavia, 1918-1929 Alan Fogelquist, 2011 This study based on the author's doctoral dissertation at UCLA examines Yugoslav economic policy from 1918 to 1929: how it was made and how it was affected by political developments of the time. It studies the activities of Yugoslavia's regional political and business elites, political groups and corporations, their reactions to Yugoslav economic policy and their efforts to influence it. The study contains a detailed analysis of party politics and the manner in which the political process affected economic policy. The study uncovers and explains relationships between state elite class, national confessional groups and territorial regions in the determination of social and economic policy in the Kingdom of Serbs, Croats and Slovenes, later renamed Yugoslavia, and the relationship between these groups and the Yugoslav state.

The Politics Of Interests Mark P. Petracca, 2018-02-19 This is a thematically unified survey of current and significant issues affecting interest group politics and scholarship in the USA. Petracca has drawn together interest group scholars and practitioners to write 16 original essays dedicated to making the best and newest research accessible to students at all levels. The mix of perspectives and approaches aims to offer a stimulating analysis of contemporary American interest group activity.

The Political Power of Business Patrick Bernhagen, 2007-12-13 This book analyzes the influence of business in democratic politics. Advice from business actors regularly carries more weight with policymakers than other interests because it refers to the core of the state-market nexus in democratic capitalism: the consequences for voters and policymakers of harming business and the economy. The book examines the

The Politics of Cybersecurity in the Middle East James Shires, 2022-05-01 Cybersecurity is a complex and contested issue in international politics. By focusing on the great powers—the US, the EU, Russia, and China—studies in the field often fail to capture the specific politics of cybersecurity in the Middle East, especially in Egypt and the GCC states. For these countries, cybersecurity policies and practices are entangled with those of long-standing allies in the US and Europe and are built on reciprocal flows of data, capital, technology, and expertise. At the same time, these states have authoritarian systems of governance more reminiscent of Russia or China, including approaches to digital technologies centred on sovereignty and surveillance. This book is a pioneering examination of the politics of cybersecurity in the Middle East. Drawing on new interviews and original fieldwork, James Shires shows how the label of cybersecurity is repurposed by states.

companies and other organisations to encompass a variety of concepts including state conflict targeted spyware domestic information controls and foreign interference through leaks and disinformation These shifting meanings shape key technological systems as well as the social relations underpinning digital development But however the term is interpreted it is clear that cybersecurity is an integral aspect of the region s contemporary politics Small-business Participation in Government Procurement, 1957 United States. The political economy of health care Tudor Hart, Julian, 2010-09-01 With a foreword by Tony Benn Drawing on clinical experience dating from the birth of the NHS in 1948 Julian Tudor Hart a politically active GP in a Welsh coal mining community charts the progress of the NHS from its 19th century origins in workers mutual aid societies to its current forced return to the market His starting point is a detailed analysis of how clinical decisions are made He explores the changing social relationships in the NHS as a gift economy how these may be affected by reducing care to commodity status and the new directions they might take if the NHS resumed progress independently from the market This edition of this bestselling book has been entirely rewritten with two new chapters and includes new material on resistance to that world wide process The essential principle in the book is that patients need to develop as active citizens and co producers of health gain in a humanising society and the author s aim is to promote it wherever people recognise that pursuit of profit may be a brake on rational progress

The Complexity of Self Government Ruth Lane, 2016-12-15 The Complexity of Self Government represents a revolutionary approach to political science Bottom up theory turns political and social analysis upside down by focusing analytic attention not on vacuous abstractions but on the individual men and women who either consciously or inadvertently create the institutions within which they live Understanding this practical level of human activity is made possible through complexity theory recently developed in computer models but of wider use in understanding everyday human behaviour To this complexity framework the book adds social science to give life and colour to the analytical picture micro sociology from Garfinkel and Goffman anthropology from Bourdieu and non technical game theory based on Thomas Schelling s microanalytics to give rigour and bite Theoretical examples include India s Mumbai Iran the marshes of southern Iraq Berlusconi s Italy backcountry China Zimbabwe and Nelson Mandela s revolution in South Africa
