

Memorandum

Dated: 14 January 2023

To: Sales & Marketing Group

From: Praveenkumar Revankar, Product Engineering

Subject: Delay in release timelines of Feature A and Feature B.

Purpose:

The purpose of this document is to notify the cross-functional group about sudden changes in release timelines of Feature A and Feature B and to reinform the group to reprioritize certain tasks for Sales and Marketing for the release.

Background/Context:

We have been working together on our key USP features 'Feature A' and 'Feature B' for targeting their release this quarter. Due to unforeseen circumstances, there is a change in the release timelines and the new timeline will be shared shortly in Scrum of Scrum meeting where a representative from Sales has been invited.

Action:

Even though it looks like a major setback and current activities w.r.t. The release can be paused, there are certain actions that have to be performed in this quarter. The same has been conveyed in Jira, marking the work items with labels "Q1_Paused" and "Q1_Must." Please reprioritize your internal activities based on the labels in Jira and ensure a final plan reflected in Jira on or before 30 January 2023.

Conclusion:

We might be delayed with the release but we are not affecting the business. The necessary strategy is defined and put in place to ensure customers can solve their problems using our support until Feature A and Feature B release.

Thanks,
Praveenkumar Revankar

upgrade a nineteenth century water system The water metering programme began in August 2013 and was carried out at breakneck speed However it did not go to plan and the issue of water charges divided Ireland There were nationwide demonstrations and confrontations in housing estates involving water meter contractors garda and water charge protesters The programme ended in political disaster with a humiliated government having to send out one million refunds With access to unpublished documents and interviews with the key personalities on both sides In Deep Water provides a blow by blow account of how it all went wrong The rows at cabinet The warnings that went unheeded The water women The smartphone wielding protesters And the minister who threatened to reduce people s water to a trickle Compulsively readable and fast paced In Deep Water gives an inside view of the controversy that divided Ireland *Political Standards* Karthik

Ramanna,2015-11-09 Prudent verifiable and timely corporate accounting is a bedrock of our modern capitalist system In recent years however the rules that govern corporate accounting have been subtly changed in ways that compromise these core principles to the detriment of the economy at large These changes have been driven by the private agendas of certain corporate special interests aided selectively and sometimes unwittingly by arguments from business academia With *Political Standards* Karthik Ramanna develops the notion of thin political markets to describe a key problem facing technical rule making in corporate accounting and beyond When standard setting boards attempt to regulate the accounting practices of corporations they must draw on a small pool of qualified experts but those experts almost always have strong commercial interests in the outcome Meanwhile standard setting rarely enjoys much attention from the general public This absence of accountability Ramanna argues allows corporate managers to game the system In the profit maximization framework of modern capitalism the only practicable solution is to reframe managerial norms when participating in thin political markets *Political Standards* will be an essential resource for understanding how the rules of the game are set whom they inevitably favor and how the process can be changed for a better capitalism **Sport, Media and Mega-Events** Lawrence A.
