Business Object Design and Implementation Jeffrey V. Sutherland,Dilip Patel,Cory Casanave,Joaquin Miller,Glenn Hollowell,2012-12-06 Over the past 10 years object technology has gained widespread acceptance within the software industry Within a wider context however it has made little impact on the core applications which support businesses in carrying out their tasks This volume contains a collection of papers establishing the need for Business Objects with particular reference to work undertaken by the Object Management Group OMG The emphasis is on defining an agenda for establishing Business Object standards and architectures for developing software technology to support Business Objects applications and managing object oriented development projects The wide variety of papers presented and their authors expertise make this book a significant contribution to the development of Business Objects and their management

User-Centered Interaction Design Patterns for Interactive Digital Television Applications Tibor Kunert,2009-06-12 Technology is meant to make life easier and to raise its quality Our interaction with technology should be designed according to human needs instead of us being required to adapt to technology Even so technology may change quickly and people and their habits change slowly With the aim of supporting user acceptance of iTV the focus of this book is on the usability of iTV applications A method for developing interaction design patterns especially for new technologies is presented for the first time The main characteristics covered in this new approach are systematic identification of recurrent design problems usability as a quality criterion for design solutions integration of designers into the pattern development process including

identification of designers needs and iterative evaluation and optimisation of patterns to encourage designers to accept and use them usability testing to identify proven design solutions and their trade offs presentation of specific design guidelines
