Business Processes For Business Communities Modeling Languages Methods Tools:

Business Processes for Business Communities Frank Schönthaler, Gottfried Vossen, Andreas Oberweis, Thomas Karle, 2012-03-14 After a brief introduction to the topic of business process modeling the book offers a quick start into model based business process engineering After that the foundations of the modeling languages used are conveyed Meaningful examples are in the foreground each of the underlying formalisms is treated only as far as needed Next the Horus Method is described in detail The book defines a sequence of activities which finally leads to the creation of a complete business process model The Horus Method incidentally is not bound to the use of the Horus software tools It can be used with other tools or if necessary be used even without tool support Important application fields of business process engineering are described where the spectrum ranges from business process reengineering to the development and implementation of information systems The book concludes with an outlook on the future of business process engineering and highlights current research activities in the area

Domain-Specific Conceptual Modeling Dimitris Karagiannis, Moonkun Lee, Knut Hinkelmann, Wilfrid Utz, 2022-03-10 This book demonstrates the significance of domain specific conceptual modeling through new research and development approaches that are manifested in each of the chapters They include novel modelling methods and tools that emphasize the recent results accomplished and their adequacy to assess specific aspects of a domain Each chapter offers detailed instructions on how to build models in a particular domain such as product service engineering enterprise engineering digital business ecosystems and enterprise modelling and capability management All chapters are enriched with case studies related information and tool implementations The tools are based on the ADOxx metamodeling platform and are provided free of charge via OMiLAB Furthermore the book emphasizes possible future developments and potential research directions The collection of works presented here will benefit experts and practitioners from academia and industry alike including members of the conceptual modeling community as well as lecturers and students

Foundations for a Social Workflow Platform M. Sebastian E. K. Görg, 2016-04-15 Sebastian Görg introduces social workflows as a new application domain for Process Aware Information Systems and draws the design of a social workflow platform that enables private individuals to make use of workflow technology in their everyday lives Whenever a group of persons works together on a challenging or multifaceted task a social workflow begins In textual form such social workflows are already described and shared in various Internet communities which provide experiential knowledge for achieving different goals in areas like home repair vacation trips and computer troubleshooting The envisioned platform enables its users to construct social workflows according to their specific needs to share them with a community and to keep track of the execution
